Independent Auditors' Report

To the Board of Directors and shareholders of SINGATRON ENTERPRISE CO., LTD.:

Audit opinions

We have audited the accompanying consolidated balance sheets of SINGATRON ENTERPRISE CO., LTD. and its subsidiaries as of December 31, 2023 and 2022, and the related consolidated statements of comprehensive income, consolidated statements of changes in equity, consolidated statements of cash flows, and notes to the consolidated financial statements (including summary of significant accounting policies) for the years then ended.

In our opinion, and based on our audit and the audit reports of other CPAs (please refer to the "Other Matters" section), the consolidated financial statements referred to above present fairly, in all material respects, the financial position of SINGATRON ENTERPRISE CO., LTD. and its subsidiaries as of December 31, 2023 and 2022, and its consolidated financial performance and cash flows for the years then ended, in conformity with the requirements of regulations governing the preparation of financial statements by securities issuers and International Financial Reporting Standards, International Accounting Standards, and Interpretations endorsed and issued into effect by the Financial Supervisory Commission.

Basis for Opinion

We conducted our audits in accordance with the Regulation Governing Auditing and Certification of Financial Statements by Certified Public Accountants and auditing standards. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. The auditors of the firm, subject to the independence regulations, have maintained independence from SINGATRON ENTERPRISE CO., LTD. and its subsidiaries in accordance with the Code of Ethics and perform other obligations of such Code. Based on our audit results and the audit reports of other accountants, we believe that we have obtained sufficient and appropriate audit evidence as the basis for expressing the audit opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of SINGATRON ENTERPRISE CO., LTD. and its subsidiaries for the year ended December 31, 2023. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Revenue recognition

For 2023, SINGATRON ENTERPRISE CO., LTD. and its subsidiaries recognized an operating revenue of NTD 3,451,730 thousand. The Company and its subsidiaries have agreements with their major customers to store inventory at the designated shipping warehouses of these sales customers. The Company and its subsidiaries have to judge and determine the performance obligations and the timing of satisfaction based on customer orders or shipping documents, which involves significant risk of ownership of inventory and complexity at the point of transfer of remuneration, resulting in significant risk in the recognition of operating revenue. Therefore, we decided that revenue recognition is a key audit matter. Our audit procedures included, but were not limited to, evaluating the appropriateness of accounting policies for revenue recognition, evaluating and testing the effectiveness of internal control over the sales cycle in determining revenue amounts, performing sales revenue cutoff tests on a sample of transactions for a period of time before and after the balance sheet date and reviewing whether the terms of the transactions and the timing of revenue recognition are consistent with the performance obligations and the timing of satisfaction, performing itemized tests on a sample of transactions and reviewing the material terms and conditions of the contracts. We also considered the appropriateness of the disclosure of operating revenue in Notes 4 and 6 to the Consolidated Financial Statements.

Allowance for losses on accounts receivable

The carrying amounts of the consolidated accounts receivable and allowance for losses of SINGATRON ENTERPRISE CO., LTD. and its subsidiaries as of December 31, 2023 were NTD 1,150,364 thousand and NTD 8,140 thousand, respectively. The net accounts receivable accounted for 13% of the consolidated total assets, which is significant for SINGATRON ENTERPRISE CO., LTD. and its subsidiaries. Since the allowance for losses on accounts receivable is measured based on the expected credit losses over the duration of continuation, the measurement process requires appropriate groupings of accounts receivable and judgmental and analysis of the application of assumptions related to the measurement process and the measurement result affects the net accounts receivable and, therefore, we consider it to be a critical audit. Our audit procedures included, but were not limited to, analyzing the appropriateness of management's grouping of accounts receivable to determine whether customers with significantly different loss profiles (based on similar risk characteristics) were appropriately grouped (e.g. based on historical experience); testing the reserve matrix used by SINGATRON ENTERPRISE CO., LTD. and its subsidiaries including assessing the reasonableness of the determination of the ageing range of each group of accounts receivable and checking the correctness of the original certificates against the underlying information; reviewing the collection status of accounts receivable in the subsequent period to assess the collectability of accounts receivable; analyzing the changes in the long-term trend of credit losses and the turnover rate of accounts receivable, and confirming whether any impairment occurred at the end of the period. We also considered the appropriateness of the disclosure of accounts receivable and related risks in Notes 5 and 6 to the Consolidated Financial Statements.

Other Matters - Audits by other CPAs

The financial statements of investees of SINGATRON ENTERPRISE CO., LTD accounted for using the equity method have not been audited by us but by other CPAs. Therefore, our opinion on the figures of the investees in the consolidated financial statements is based on the audit reports of other independent auditors. As of December 31, 2023, the investment in these investees accounted for using the equity method was NTD 583,337 thousand, accounting for 7% of the consolidated total assets. For the year ended December 31, 2023 , the share of profit or loss of the associate companies and joint ventures accounted for using the equity method was NTD 11,793 thousand, accounting for 4% of the consolidated net profit before tax. The associate companies and joint ventures recognized using the equity method and the share of other comprehensive income was NTD (1,479) thousand, accounting for 4% of the consolidated other comprehensive income net.

Responsibilities of Management Level and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the IFRS, IAS, IFRIC, and SIC endorsed and issued into effect by the Financial Supervisory Commission of the R.O.C., and for necessary internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is also responsible for assessing the ability of SINGATRON ENTERPRISE CO., LTD. and its subsidiaries to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate SINGATRON ENTERPRISE CO., LTD. and its subsidiaries or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, Including the Audit Committee, are responsible for overseeing the financial reporting process of SINGATRON ENTERPRISE CO., LTD. and its subsidiaries.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. The term of "reasonable assurance" refers to high level of assurance. Nevertheless, the audit performed according to the Auditing Standards cannot guarantee the discovery of material misstatement in the consolidated financial statements. Misstatements can arise from fraud or error. Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the consolidated financial statements.

As part of an audit in accordance with the auditing accepted in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risk of material misstatement of the consolidated financial statements due to fraud or error, design and adopt appropriate countermeasures for the risks assessed, and obtain sufficient and appropriate audit evidence in order to be used as the basis for the opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control of SINGATRON ENTERPRISE CO., LTD. and its subsidiaries.

3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management level.

4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of SINGATRON ENTERPRISE CO., LTD. and its subsidiaries to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause SINGATRON ENTERPRISE CO., LTD. and its subsidiaries to cease to continue as a going concern.

5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including relevant notes, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

6. Obtain sufficient and appropriate audit evidence for the financial information of individual entities of the Group and provide opinion on the consolidated financial statements. We handle the guidance, supervision and execution of the audit on the Group and are responsible for preparing the opinion for the Group.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the governance units with statements that we have complied with relevant matters that may reasonably be thought to bear on our independence, and we have also communicated with the governance units on all relationships and other matters (including relevant protective measures) that may be considered to affect the independence of auditors.

From the matters communicated with those charged with governance, we determine those matters that were of most significant in the audit of the 2023 consolidated financial statements of SINGATRON ENTERPRISE CO., LTD. and its subsidiaries and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Others

SINGATRON ENTERPRISE CO., LTD. has prepared the parent company only financial statements for 2023 and 2022, and we have issued an unqualified opinion and an unqualified opinion on other matters, respectively, for the record and for reference .

I. Company History

SINGATRON ENTERPRISE CO., LTD. (hereinafter referred to as the Company) was established in July 1976 and started its business in October 1976.

The Company's main business is the development, manufacturing and sale of electronic connectors and electronic modules for various power supply, audio and video signal and electronic signal transmission devices. The products' main applications include notebook computers and peripherals, tablet computers, various consumer electronics, automotive electronics, and network communications.

The Company's shares have been listed on TPEx for trading since January 18, 2002, and its principal place of operations is located at No. 209, Section 2, Zhongzheng Road, Hukou Township, Hsinchu County.

II. Date and Procedures for Approval of Financial Statements

The consolidated financial statements of the Company and its subsidiaries (the "Group") for 2023 and 2022 were approved for release by the Board of Directors on March 12, 2024.

III. Application of New Standards, Amendments and Interpretations

1. Changes in accounting policies resulting from the first-time adoption of IFRS

The Group has adopted IFRS, IAS, IFR interpretations or interpretation pronouncements endorsed by the Financial Supervisory Commission ("FSC") and are applicable for fiscal years beginning after January 1, 2023, and the first-time application of the new standards and amendments has no material impact on the Group.

2. As of the date of publication of the financial statements, the Group has not applied the following new, revised and amended standards or interpretations, which have been issued by the IASB and endorsed by the FSC.

Item	New, Revised or Amended Standards and Interpretations	Effective date of IASB publication
1	Classification of liabilities as current or non-current (Amendment to IAS 1)	January 1, 2024
2	Lease liabilities under sale and leaseback (amendments to IFRS 16)	January 1, 2024
3	Non-current Liabilities in Contracts (Amendments to IAS 1)	January 1, 2024
4	Supplier financing arrangement (Amendment to IAS 7 and IFRS 7)	January 1, 2024

(1) Classification of liabilities as current or non-current (Amendment to IAS 1)

This amendment is to revise the classification of liabilities as current or non-current in paragraphs 69 to 76 of IAS 1, "Presentation of Financial Statements".

(2) Lease liabilities under sale and leaseback (amendments to IFRS 16)

This is to add the additional accounting treatment to IFRS 16 "Leases" for sellers and lessees in sale and leaseback transactions to improve the consistent application of the standards.

(3) Non-current Liabilities in Contracts (Amendments to IAS 1)

The amendments are to improve the information provided by companies on long-term debt contracts. It is to clarify that contractual obligations that are subject to 12 months after the reporting period do not affect the classification of these liabilities as current or noncurrent at the end of the reporting period.

(4) Supplier financing arrangement (Amendment to IAS 7 and IFRS 7)

In addition to adding the description of the supplier's financing arrangement, this amendment also adds the relevant disclosure of the supplier's financing arrangement.

The above are the newly issued, amended and revised standards or interpretations issued by the IASB and endorsed by the FSC and are applicable for fiscal years beginning after January 1, 2024. The Group assesses that the aforementioned newly issued or amended standards, or interpretations have no material impact on the Group.

3. As of the date of publication of the financial statements, the Group has not applied the following new, revised and amended standards or interpretations, which have been issued by the IASB but not yet endorsed by the FSC.

Item	New, Revised or Amended Standards and Interpretations	Effective date of IASB publication
1	Amendments to IFRS 10 "Consolidated Financial Statements" and IAS 28 "Investments in Affiliated Enterprises and Joint Ventures" - Sale or Contribution of Assets between an Investor and its Affiliated Enterprises or Joint Ventures	To be decided by IASB
2	IFRS 17 "Insurance Contracts"	January 1, 2023
3	Lack of Exchangeability (Amendment to IAS 21)	January 1, 2025

(1)Amendments to IFRS 10 "Consolidated Financial Statements" and IAS 28 "Investments in Affiliated Enterprises and Joint Ventures" - Sale or Contribution of Assets between an Investor and its Affiliated Enterprises or Joint Ventures

The plan is to address the inconsistency between IFRS 10 "Consolidated Financial Statements" and IAS 28 "Investments in Affiliated Enterprises and Joint Ventures" regarding the loss of control over an investment in an affiliate or joint venture using a subsidiary as the consideration. IAS 28 requires that when a non-monetary asset is invested in exchange for an interest in an affiliate or joint venture, the share of the resulting gain or loss should be eliminated in accordance with the treatment of a downstream transaction; IFRS 10 requires that the full amount of the gain or loss should be recognized when control over the subsidiary is lost. The amendment restricts the aforementioned requirements of IAS 28 so that when an asset that constitutes a business is sold or contributed as defined in IFRS 3, the resulting gain or loss should be recognized in full.

The amendment also revises IFRS 10 so that a gain or loss arising from the sale or investment of a subsidiary that does not constitute a business as defined in IFRS 3 between an investor and its affiliate or joint venture is recognized only to the extent that it is not the investor's share.

(2)IFRS 17 "Insurance Contracts"

The standard provides a comprehensive model of insurance contracts that includes all relevant components of accounting (recognition, measurement, presentation and disclosure principles). The core of the standard is a general model under which a group of insurance contracts is measured at the sum of contractual cash flows and contract service margin on initial recognition; the carrying amount at the end of each reporting period is the sum of the remaining coverage liability and the incurred claims liability.

In addition to the general model, specific applicable methods are also available for contracts with direct participation characteristics (variable fee method); and a simplified method for short-term contracts (premium sharing method).

This standard was issued in May 2017 and amended in 2020 and 2021. In addition to extending the effective date in the transitional provisions by two years (i.e., from January 1, 2021 to January 1, 2023) and providing additional exemptions, the amendment reduces the cost of adopting the standard by simplifying some of the requirements and modifying some of the requirements to make some situations easier to interpret. This standard will supersede the transitional standard (i.e. IFRS 4 'Insurance contracts') when it becomes effective.

(3)Lack of Exchangeability (Amendment to IAS 21)

This amendment explains the exchangeability and lack of exchangeability between currencies, and how the exchange rate is determined when the currency lacks exchangeability, and adds additional disclosure requirements when the currency lacks exchangeability. The amendment shall be applicable for the fiscal year beginning after January 1, 2025.

The actual application dates of the above standards or interpretations issued by the IASB but not yet endorsed by the FSC are subject to the FSC's regulations. The Group assesses that the aforementioned newly issued or amended standards or interpretations have no material impact on the Group.

IV. Summary of Significant Accounting Policies

1. Compliance Statement

The Group’s consolidated financial statements for 2023 and 2022 are prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the IFRS, IAS, IFR interpretations or interpretation pronouncements approved and issued into effect by the FSC.

2. Basis of preparation

The consolidated financial statements have been prepared on the historical cost basis, except for financial instruments at fair value. The consolidated financial statements are presented in thousands of NTD unless otherwise stated.

3. Consolidation Overview

Principles for preparing consolidated financial statements

Control is achieved when the Company is exposed to variable remuneration from participation in an investee or has rights to such variable remuneration and has the ability to affect such remuneration through its power over the investee. In particular, the Company controls an investee only when the Company has the following three elements of control:

(1) power over the investee (i.e., an existing right that gives it the present ability to direct the relevant activities)
(2) the exposure or right to variable remuneration from the participation in the Investee, and
(3) the ability to use its power over the investee to affect the amount of the investor's remuneration

When the Company holds, directly or indirectly, less than a majority of the voting rights or similar rights of an investee, the Company considers all relevant facts and circumstances to assess whether it has power over the investee, including:

(1) contractual agreements with other holders of the voting rights of the investee
(2) rights arising from other contractual agreements
(3) voting rights and potential voting rights

The Company reassesses whether it still controls the investee when facts and circumstances indicate that one or more of the three elements of control have changed.

Subsidiaries are included in the consolidated financial statements in their entirety from the date of acquisition (i.e., the date on which the Group obtains control) until the date on which control over the subsidiary is lost. The accounting periods and accounting policies of subsidiaries' financial statements are consistent with those of the parent company. All intra-group account balances, transactions, unrealized internal profits and losses and dividends arising from intra-group transactions are eliminated in full.

Changes in shareholdings in subsidiaries are accounted for as equity transactions if control over the subsidiaries is not lost.

The total comprehensive incomes of subsidiaries are attributed to owners of the parent company and non-controlling interests, and the same applies even if the non-controlling interest has a loss balance as a result.

If the Company loses control of a subsidiary, then

(1) derecognize the assets (including goodwill) and liabilities of the subsidiary;
(2) derecognize the carrying amount of any non-controlling interests;
(3) recognize the fair value of the consideration acquired;
(4) recognize the fair value of any investment retained;
(5) reclassify the amount of the item previously recognized by the parent company as other comprehensive income as current profit or loss, or directly transfer to retained earnings in accordance with other IFRSs;
(6) recognize the difference generated in the current profit and loss.

Entities covered by the consolidated financial statements are as follows:

Name of investor	Name of subsidiary	Main business	Shareholding percentage: 2023/12/31	2022/12/31
The Company	SINGATRON INVESTMENT COMPANY LIMITED	General investments	100%	100%
The Company	SINGATRON (B.V.I.) ENTERPRISE CO., LTD.	General investments	100%	100%
SINGATRON (B.V.I.) ENTERPRISE CO., LTD.	SINGATRON(HONG KONG) INTERNATIONAL HOLDING LIMITED	Investment	100%	100%
SINGATRON(HONG KONG) INTERNATIONAL HOLDING LIMITED	SINGATRON Electronics (China) Co. Ltd.	Manufacturing and sale of connectors	61.1986% (Note 1)	81.8868%
SINGATRON Electronics (China) Co. Ltd.	Singatron Electronic (Zhongshan) Co., Ltd.	Manufacturing and sale of connectors	100%	100%
SINGATRON Electronics (China) Co. Ltd.	SINGATRON TECHNOLOGY (HongKong) CO., LIMITED	Trading of connectors and import and export related business	100%	100%
Singatron Electronic (Zhongshan) Co., Ltd.	Zhongshan Singatron Connector Co., Ltd.	Manufacturing and sale of connectors	100%	100%
SINGATRON Electronics (China) Co. Ltd.	Suzhou Singatron Connector Co., Ltd.	Manufacturing and sale of connectors	100%	100%
SINGATRON Electronics (China) Co. Ltd.	SINGATRON SAN JOSE CONNECTION CO., LTD.	Marketing and sales and customer services	100%	100%
SINGATRON Electronics (China) Co. Ltd.	Suzhou Singatron Auto Co., Ltd.	Manufacturing and sale of connectors	100%	100%

Note 1: SINGATRON Electronics (China) Co. Ltd., the sub-subsidiary of the Company, was officially listed on the Shenzhen Stock Exchange on July 17, 2023 with the issuance of 43,000 thousand common shares (A-shares) in RMB through cash capital increase. The Company's sub-subsidiary SINGATRON (HONG KONG) INTERNATIONAL HOLDING LIMITED is the controlling shareholder of SINGATRON Electronics (China) Co. Ltd. Pursuant to Article 26 of the "Regulations Governing the Issuance and Underwriting of Securities" of the China Securities Regulatory Commission: the controlling shareholder is not allowed to participate in the placement of securities by public companies, resulting in a decrease in the shareholding of SINGATRON Electronics (China) Co. Ltd. from 81.8868% to 61.1986%.

4. Foreign Currency Transactions

The Group's consolidated financial statements were expressed in New Taiwan Dollars, which is the parent company's functional currency. Each entity within the Group determines its own functional currency and measures its financial statements in that functional currency.

The foreign-currency transactions of the entities within the Group are recorded in their functional currency using the exchange rate at the date of the transaction. At the end of each reporting period, monetary items denominated in foreign currencies are translated at the closing rate on that date; non-monetary items denominated in foreign currencies that are measured at fair value are translated at the exchange rate at the date of the fair value measurement; non-monetary items denominated in foreign currencies that are measured at historical cost are translated at the exchange rate at the date of the original transaction.

Exchange differences arising from settlement or translation of monetary items other than those described below are recognized as profit or loss in the period in which they occur:

(1) Exchange differences arising on foreign-currency borrowings to acquire qualifying assets that are treated as adjustments to interest costs are capitalized as part of the cost of the borrowings and are recognized as the cost of the assets.

(2) Foreign-currency items under IFRS 9, "Financial Instruments," are accounted for in accordance with the accounting policy for financial instruments.

(3) For monetary items that form part of a reporting entity's net investment in a foreign operation, the resulting exchange differences are recognized in other comprehensive income and are reclassified from equity to profit or loss upon disposal of the net investment.

When a gain or loss on a non-monetary item is recognized in other comprehensive income, any exchange component of that gain or loss is recognized in other comprehensive income. When a gain or loss on a non-monetary item is recognized in profit or loss, any exchange component of that gain or loss is recognized in profit or loss.

5. Translation of financial statements in foreign currency

In preparing the consolidated financial statements, the assets and liabilities of foreign operations are translated into NTD at the closing rate on the balance sheet date, and income and expense items are translated at the average exchange rate for the period. Exchange differences arising from translation are recognized in other comprehensive income. Upon disposal of the foreign operation, the cumulative exchange differences previously recognized in other comprehensive income and accumulated in a separate component of equity are reclassified from equity to profit or loss upon recognition of the gain or loss on disposal. A partial disposal involving a loss of control over a subsidiary that includes a foreign operation and a partial disposal of an interest in an affiliate or joint agreement that includes a foreign operation in which the retained interest is a financial asset that includes a foreign operation are also treated as disposal.

Upon partial disposal of a subsidiary that includes a foreign operation without loss of control, the cumulative translation differences recognized in other comprehensive income are reattributed to the non-controlling interest in the foreign operation on a pro rata basis and are not recognized in profit or loss; upon partial disposal of an affiliate or joint agreement that includes a foreign operation without loss of significant influence or joint control, the cumulative translation differences are reclassified to profit or loss on a pro rata basis.

Goodwill arising from the acquisition of a foreign operation and fair value adjustments to the carrying amounts of its assets and liabilities are treated as assets and liabilities of the foreign operation and reported in its functional currency.

6. Classification of Current and Non-current Assets and Liabilities

Assets are classified as current assets if one of the following conditions is met while assets not classified as current assets are classified as non-current assets.

(1) The asset is expected to be realized in the normal course of business, or is intended to be sold or consumed.
(2) The asset is held primarily for the purpose of trading.
(3) The asset is expected to be realized within 12 months after the balance sheet date.
(4) Cash or cash equivalents, except for those that are exchanged or restricted for the settlement of liabilities at least 12 months after the balance sheet date.

Liabilities are classified as current liabilities if one of the following conditions is met while liabilities not classified as current liabilities are classified as non-current liabilities:

(1) The liability is expected to be settled in the normal course of business.
(2) The liability is held primarily for the purpose of trading.
(3) The liability is expected to be settled upon maturity within 12 months after the balance sheet date.
(4) The liability for which the settlement date cannot be extended unconditionally to more than 12 months after the reporting period. The fact that the terms of the liabilities may allow settlement by issuing equity instruments at the option of the trading partners does not affect the classification.

7. Cash and cash equivalents

Cash and cash equivalents consist of cash on hand, demand deposits and short-term highly liquid time deposits or investments (including time deposits of contract period within three months) that are readily convertible into fixed amounts of cash and subject to an insignificant risk of changes in value.

8. Financial instruments

Financial assets and liabilities shall be recognized when the Group becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities that are within the scope of IFRS 9, "Financial Instruments", are measured at fair value on initial recognition. Transaction costs directly attributable to the acquisition or issuance of financial assets and financial liabilities (other than those classified as at fair value through profit or loss) are added to or deducted from the fair value of those financial assets and financial liabilities.

(1) Recognition and Measurement of Financial Assets

The Group uses trade date accounting for the recognition and derecognition of all customarily traded financial assets.

The Group classifies financial assets as financial assets subsequently measured at amortized cost, measured at fair value through other comprehensive income or measured at fair value through profit or loss on the following two bases:

A. operating model for managing financial assets
B. contractual cash flow characteristics of financial assets

Financial assets at amortized cost

Financial assets that meet both of the following two criteria are measured at amortized cost and reported in the balance sheet as notes receivable, accounts receivable, financial assets measured at amortized cost and other receivables.

A. Operating model for managing financial assets: Holding financial assets to collect contractual cash flows
B. Contractual cash flow characteristics of financial assets: Cash flows consist solely of payments of principal and interest on the principal amount outstanding

These financial assets (excluding those involved in hedging relationships) are subsequently measured at amortized cost [the amount measured at original recognition, less principal repaid, plus or minus the cumulative amortization of the difference between that original amount and the maturity amount (using the effective interest method), and adjusted for allowance for losses]. An impairment gain or loss is recognized in profit or loss when it is derecognized, through the amortization process, or when an impairment gain or loss is recognized.

Interest calculated using the effective interest method (by multiplying the effective interest rate by the total carrying amount of the financial asset) or the following is recognized in profit or loss:

A. For credit-impaired financial assets acquired or created, the effective interest rate after credit adjustment is multiplied by the amortized cost of the financial assets
B. If the financial asset is not impaired, but subsequently becomes impaired, the effective interest rate is multiplied by the amortized cost of the financial asset.

Financial assets at fair value through other comprehensive income

Financial assets measured at fair value through other comprehensive income are reported in the balance sheet as financial assets measured at fair value through other comprehensive income if both of the following conditions are met:

A. Operating model for managing financial assets: Collect contractual cash flows and sell financial assets
B. Contractual cash flow characteristics of financial assets: Cash flows consist solely of payments of principal and interest on the principal amount outstanding

The recognition of gain and loss related to this type of financial assets is described as follows:

A. Before derecognition or reclassification, gains or losses are recognized in other comprehensive income, except for impairment gains or losses and foreign currency exchange gains or losses, which are recognized in profit or loss.

B. Upon derecognition, the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment.

C. Interest calculated using the effective interest method (by multiplying the effective interest rate by the total carrying amount of the financial asset) or the following is recognized in profit or loss:

(a) For credit-impaired financial assets acquired or created, the effective interest rate after credit adjustment is multiplied by the amortized cost of the financial assets

(b) If the financial asset is not impaired, but subsequently becomes impaired, the effective interest rate is multiplied by the amortized cost of the financial asset

In addition, for equity instruments that are within the scope of application of IFRS 9 and that are neither held-for-trading nor contingent consideration recognized by the acquirer in a business combination to which IFRS 3 applies, subsequent changes in fair value are selectively (irrevocably) reported in other comprehensive income upon initial recognition. Amounts reported in other comprehensive income are not subsequently transferred to profit or loss (upon disposal of such equity instruments, the cumulative amounts included in other equity items are transferred directly to retained earnings), and financial assets measured at fair value through other comprehensive income are reported in the balance sheet. Dividends from investments are recognized in profit or loss unless it is clear that the dividends represent a partial recovery of the cost of the investment.

Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss, except when they meet certain criteria and are measured at amortized cost or at fair value through other comprehensive income, as described above, and are reported in the balance sheet as financial assets measured at fair value through profit or loss.

The gain or loss arising from the remeasurement of such financial assets measured at fair value is recognized in profit or loss, and the gain or loss recognized in profit or loss includes any dividends or interest received on the financial assets.

(2) Impairment of financial assets

The Group recognizes and measures the allowance for losses on investments in debt instruments measured at fair value through other comprehensive income and financial assets measured at amortized cost using expected credit losses. Investments in debt instruments measured at fair value through other comprehensive income or loss are recognized as an allowance for losses in other comprehensive income or loss and do not reduce the carrying amount of the investments.

The Group measures expected credit losses in a manner that reflects the following:

A. Unbiased, probability-weighted amounts determined by evaluating various possible outcomes
B. Time value of money
C. Information relating to past events, current conditions and projections of future economic conditions that is reasonable and supportable (available at the balance sheet date without excessive costs or inputs)

The method of measuring the allowance for losses is described as follows:

A. Measured by the amount of expected credit losses over 12 months: including financial assets with no significant increase in credit risk since original recognition or those with low credit risk as of the balance sheet date. In addition, it also includes the allowance for losses measured at the amount of expected credit losses during the prior reporting period, but at the balance sheet date no longer meets the condition that the credit risk has increased significantly since the original recognition.

B. Measurement of the amount of expected credit losses over the duration of existence: including financial assets with no significant increase in credit risk since original recognition or credit impaired financial assets that are acquired or created.

C. For accounts receivable or contract assets arising from transactions within the scope of IFRS 15, the Group measures the allowance for losses using the expected credit loss amount over the life of the transaction.

D. For lease receivables arising from transactions within the scope of IFRS 16, the Group measures the allowance for losses using the expected credit loss amount over the life of the transaction.

The Group assesses at each balance sheet date whether the credit risk of a financial instrument has increased significantly since original recognition by comparing the change in default risk of the financial instrument at the balance sheet date with that at the original recognition date. For information related to credit risk, please refer to Note 12.

(3) Derecognition of financial assets

Financial assets held by the Group are derecognized when one of the following conditions is met:

A. The contractual rights from the cash flows of the financial assets are terminated.
B. The financial asset is transferred and substantially all the risks and rewards of ownership of the asset are transferred to others.
C. Neither transferred nor retained substantially all the risks and rewards of ownership of the asset, but transferred control of the asset.

When a financial asset is derecognized in its entirety, the difference between its carrying amount and the sum of the consideration received or receivable and any cumulative gain or loss recognized in other comprehensive income is recognized in profit or loss.

(4) Financial liabilities and equity instruments

Classification of liabilities or equity

The liabilities and equity instruments issued by the Group are classified as financial liabilities or equity based on the substance of the contractual agreements and the definitions of financial liabilities and equity instruments.

Equity instruments

An equity instrument is any contract that recognizes the Group's remaining interest in assets less all liabilities. The equity instruments issued by the Group are recognized at the acquisition price less direct issue costs.

Composite tools

The Group recognizes the components of financial liabilities and equity for convertible corporate bonds issued in accordance with the contractual terms. In addition, for the convertible corporate bonds issued, before distinguishing the equity element, it is evaluated whether the economic characteristics and risks of the embedded buy and sell options are closely related to the main debt instrument.

For the fair value of the liabilities that do not involve derivatives, the fair value is assessed using the market interest rate equivalent to the bonds with convertible characteristics. Before the settlement of conversion or redemption, the amount of this part is classified as financial liabilities measured at amortized cost. As for other embedded derivatives that are not closely related to the economic characteristics and risks of the host contract (e.g., for the embedded repurchase option and redemption option whose exercise price is confirmed to be unable to be nearly equal to the amortized cost of the debt instrument on each exercise date), except for equity and other components, which are classified as components of liabilities and measured at fair value through profit or loss in the subsequent period, the amount of the equity element is determined by the fair value of convertible corporate bonds less the component of liabilities, and the carrying amount will not be remeasured in the subsequent accounting period. If the convertible corporate bonds issued have no equity element, they shall be handled in accordance with IFRS 9, "Hybrid Instruments".
The transaction cost is amortized to the liabilities and equity components in accordance with the ratio of the convertible corporate bonds recognized initially to the liabilities and equity components.

When the convertible bond holder requests to exercise the right of conversion before the maturity of the convertible corporate bond, the book value of the components of the liability is adjusted to the book value at the time of conversion as the basis for recording the issued ordinary shares.

Financial liabilities

Financial liabilities that meet the applicable scope of IFRS 9 are classified as financial liabilities measured at fair value through profit or loss or at amortized cost on initial recognition.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated as at fair value through profit or loss.

A financial liability is classified as held-for-trading when one of the following conditions is met:

A. It is acquired primarily for the purpose of selling in the short term.
B. It is part of a portfolio of identifiable financial instruments that are managed on initial recognition and for which there is recent evidence of a short-term profitable operating pattern; or
C. A derivative (other than a derivative on a financial guarantee contract or a designated and effective hedging instrument).

For contracts that contain one or more embedded derivatives, the overall hybrid (combined) contract may be designated as a financial liability at fair value through profit or loss; designated at fair value through profit or loss on initial recognition when one of the following factors is met that provides more relevant information:

A. The designation eliminates or materially reduces measurement or recognition inconsistencies; or
B. A group of financial liabilities or a group of financial assets and financial liabilities is managed and its performance is evaluated on a fair value basis in accordance with a written risk management or investment strategy, and the information on that portfolio provided internally to management of the Consolidated Company is also on a fair value basis.

Gains or losses arising from the remeasurement of such financial liabilities are recognized in profit or loss, and such gains or losses recognized in profit or loss include any interest paid on financial liabilities.

Financial liabilities measured at amortized cost

Financial liabilities measured at amortized cost, including payables and borrowings, are subsequently measured using the effective interest method after initial recognition. When financial liabilities are derecognized and amortized through the effective interest method, the related gain or loss and amortization are recognized in profit or loss.

Amortized cost is calculated by taking into account the discount or premium on acquisition and transaction costs.

Derecognition of financial liabilities

A financial liability is derecognized when the obligation is discharged, cancelled or expired.

When a debt instrument with materially different terms is exchanged between the Group and its creditors, or when all or part of the terms of an existing financial liability are significantly modified (whether or not due to financial difficulties), the difference between the carrying amount of the financial liability and the total consideration paid or payable (including non-cash assets transferred or liabilities assumed) is recognized in profit or loss. The difference between the carrying amount and the consideration paid or payable (including non-cash assets transferred or liabilities assumed) is recognized in earnings.

(5) Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount is presented in the balance sheet only when there is a legally enforceable right to offset the recognized amount and there is an intention to settle the asset and the liability on a net basis or to realize the asset and settle the liability simultaneously.

9. Fair Value Measurements

Fair value is the price that would be paid to sell an asset or to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements assume that the sale of an asset or transfer of a liability occurs in one of the following markets.

(1) the principal market for the asset or liability, or
(2) if there is no principal market, the most advantageous market for the asset or liability

The principal or most advantageous market must be accessible to the Group for the purpose of trading.

The fair value of an asset or liability is measured using assumptions that market participants would use in pricing the asset or liability, assuming that those market participants act in their economic best interests.

Fair value measurements of nonfinancial assets consider the ability of a market participant to generate economic benefits by using the asset for its maximum and best use or by selling the asset to another market participant that would use the asset for its maximum and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient information is available to measure fair value and maximize the use of observable inputs and minimize the use of unobservable inputs.

10. Inventories

Inventories are valued at the lower of cost or net realizable value on a item-by-item basis.

Cost is the cost incurred to bring inventories to a saleable or production-ready condition and location:

Raw materials - at actual incoming cost, using the weighted-average method.
Finished goods and work in process - includes direct raw materials, labor and fixed manufacturing costs allocated to normal production capacity, but does not include borrowing costs.

Net realizable value is the estimated selling price less costs and selling expenses to completion under normal circumstances.

The provision of service is accounted for in accordance with IFRS 15 and is not part of inventories.

11. Investment accounted for using the equity method

The Group's investments in associate companies are accounted for using the equity method, except for those classified as assets held for sale. Associate companies are those over which the Group has significant influence. A joint venture is one where the Group has rights to the net assets of a joint agreement (with joint control).

Under the equity method, investments in affiliates or joint ventures are carried on the balance sheet at cost plus changes in net assets of the affiliates or joint ventures recognized in proportion to the Group's shareholding percentages in those affiliates or joint ventures after acquisition. After the carrying amount of an investment in an affiliate or joint venture and other related long-term interests are reduced to zero using the equity method, additional losses and liabilities are recognized to the extent that legal obligations, constructive obligations or payments on behalf of the affiliate have been incurred. Unrealized gains or losses arising from transactions between the Group and its associate companies or joint ventures are eliminated in proportion to the Group's interest in the associate companies or joint ventures.

When the change in equity in an affiliate or joint venture is not attributable to profit or loss and other comprehensive income and does not affect the Group's shareholding percentage in the affiliate or joint venture, the Group recognizes the related change in ownership interest in proportion to the Company's shareholding percentage in the affiliate or joint venture. Therefore, capital surplus recognized is transferred to profit or loss on the basis of the proportion of the disposal of the affiliates or joint ventures when they are subsequently disposed of.
If the Company does not subscribe for new shares of an affiliate or joint venture in proportion to the Group's shareholding, resulting in a change in investment percentage and an increase or decrease in the Group's share of the net assets of the affiliate or joint venture, the increase or decrease is adjusted by "capital surplus" and "investments accounted for using the equity method". When the investment percentage is reduced, the relevant items previously recognized in other comprehensive income are reclassified to profit or loss or other appropriate accounts in proportion to the reduction. The forgoing capital surplus recognized is transferred to profit or loss on the basis of the proportion of the disposal of the affiliates or joint ventures when they are subsequently disposed of.

The financial statements of affiliates or joint ventures are prepared for the same reporting periods as those of the Group and are adjusted to conform to the accounting policies of the Group.

At the end of each reporting period, the Company confirms whether there is objective evidence of impairment of its investment in an associate in accordance with IAS 28, "Investments in Associates and Joint Ventures", and if there is objective evidence of impairment on the associate or joint venture, the Group calculates the amount of impairment in accordance with IAS 36, "Impairment of Assets", based on the difference between the recoverable amount and the carrying amount of the associate or joint venture and recognizes the amount in profit or loss of the affiliate or joint venture. If the value in use of the investment is used for the aforementioned recoverable amount, the Group determines the related value in use based on the following estimates:

(1) The Group's share of the present value of the estimated future cash flows from the affiliate or joint venture, including the cash flows from the affiliate's or joint venture's operations and the proceeds from the ultimate disposal of the investment; or
(2) The present value of the estimated future cash flows expected to be generated by the Group from the dividends received from the investment and the ultimate disposal of the investment.

Because the components of goodwill that constitute the carrying amount of an investment in an affiliate or joint venture are not separately recognized, the provisions of IAS 36, "Impairment of Assets" for goodwill impairment testing are not required.

When significant influence over an affiliate or joint control over a joint venture is lost, the Group measures and recognizes the retained portion of the investment at fair value. When significant influence or joint control is lost, the difference between the carrying amount of the investment in the affiliate or joint venture and the fair value of the retained investment plus the proceeds of disposal is recognized as profit or loss. In addition, when the investment in the affiliate becomes an investment in the joint venture, or the investment in the joint venture becomes an investment in the associate company, the Group continues to apply the equity method without re-measurement of the reserved equity.

12. Property, plant and equipment

Property, plant and equipment are stated at acquisition cost, less accumulated depreciation and accumulated impairment. The aforementioned costs include the costs of dismantling, removing and restoring property, plant and equipment to their original locations and the necessary interest expenses incurred for uncompleted construction. Depreciation is provided separately for each component of property, plant and equipment that is significant. When a significant component of property, plant and equipment is required to be replaced periodically, the Group recognizes the item as an individual asset with a specific useful life and depreciation method, respectively. The carrying amounts of these replaced components are derecognized in accordance with the derecognition provisions of IAS 16, "Property, Plant and Equipment". Major maintenance costs are recognized as part of the carrying amount of plant and equipment if they meet the criteria for recognition, and other repair and maintenance expenses are recognized in profit or loss.

Depreciation is provided on a straight-line basis over the estimated useful lives of the following assets:

Buildings: 5 to 55 years (20 to 55 years for the main body of buildings and construction and 5 to 15 years for ancillary equipment)
Machinery and equipment: 1 to 10 years
Transportation equipment: 5 years
Office equipment: 0.5 - 10 years
Leasehold Improvements: 25 years
Other equipment: 0.5 - 10 years

Items or significant components of property, plant and equipment are derecognized and recognized in profit or loss when they are disposed of or no future economic benefits are expected from their use or disposal after initial recognition.

The residual value, useful life and depreciation method of property, plant and equipment are evaluated at the end of each financial year. If the expected value differs from the previous estimate, the change is regarded as a change in the accounting estimate value.

13. Investment property

Investment properties owned by the Group are measured at original cost and includes the transaction cost of acquiring the asset. The carrying amount of investment property includes the cost of repairing or adding to existing investment property when the cost is recognized, but maintenance costs incurred on a regular basis are not included as part of the cost. After initial recognition, investment property is measured at cost in accordance with IAS 16, "Property, Plant and Equipment", except when it is classified as held for sale (or included in a subgroup classified as held for sale) in accordance with IFRS 5, "Non-current Assets and Discontinued Operations". However, if the property is held by a lessee as a right-of-use asset and is not held for sale under IFRS 5, it is accounted for in accordance with IFRS 16.

Depreciation is provided on a straight-line basis over the estimated useful lives of the following assets:

Buildings: 20~55 years

Investment properties are derecognized and gains or losses are recognized when it is disposed of, or permanently ceased to be used, and no future economic benefits are expected to be derived from its disposal.

The Group decides to transfer in or out of investment property depending on the actual use of the assets.

The Group reclassifies real estate as investment property or transfers out of investment property when the real estate meets or no longer meets the definition of investment property and there is evidence of a change in use.

14. Leases

At the inception of a contract, the Group assesses whether the contract is, or contains, a lease. A contract is (or contains) a lease if it transfers control over the use of an identified asset for a period of time in exchange for consideration. In order to assess whether a contract transfers control over the use of an identified asset for a period of time, the Group assesses whether, throughout the period of use, it has both of the following:

(1) the right to obtain substantially all the economic benefits from the use of the identified assets; and
(2) the right to control the use of the identified assets.

For contracts that are (or contain) leases, the Group treats each lease component of the contract as a separate lease and treats it separately from the non-lease components of the contract. Where a contract contains a lease component and one or more additional leases or non-lease components, the Group apportions the consideration in the contract to the lease component on the basis of the relative individual prices of each lease component and the aggregated individual prices of the non-lease components. The relative individual prices of lease and non-lease components are determined on the basis of the prices charged by the lessor (or similar supplier) for that component (or similar component) respectively. If an observable separate price is not readily available, the Group maximizes the use of observable information to estimate that separate price.

The Group as lessee

The Group recognizes right-of-use assets and lease liabilities for all leases when the Group is the lessee of the lease contract, except for leases that qualify as short-term leases or leases with low-value underlying assets.

The Group measures the lease liability at the commencement date at the present value of the lease payments outstanding at that date. The lease payments are discounted using the interest rate in a lease if that rate can be readily determined. If that rate cannot be readily determined, the Group uses the incremental borrowing rate. Lease payments included in the lease liability at the commencement date include the following payments relating to the right to use the subject asset during the lease period and outstanding at that date:

(1) fixed payments (including material fixed payments), net of any lease incentives that may be received;
(2) variable lease payments that depend on an index or rate (measured using the original index or rate as of the commencement date);
(3) the amount expected to be paid by the lessee under the residual value guarantee;
(4) the exercise price of the purchase option if the Group can be reasonably certain that it will exercise the option; and

(5) the penalty to be paid for lease termination if the lease period reflects that the lessee will exercise the option to terminate the lease.

Subsequent to the commencement date, the Group measures the lease liability on an amortized cost basis, increasing the carrying amount of the lease liability by the effective interest method to reflect interest on the lease liability; payments of lease benefits reduce the carrying amount of the lease liability.

The Group measures right-of-use assets at cost at the commencement date, and the cost of right-of-use assets consists of:

(1) the original measurement amount of the lease liability;
(2) any lease payments made on or before the commencement date, less any lease incentives received;
(3) any original direct costs incurred by the lessee; and
(4) the estimated cost to the lessee of disassembling, removing and restoring the subject asset to its location, or restoring the subject asset to the condition required by the terms and conditions of the lease.

Subsequent measurement of right-of-use assets is stated at cost less accumulated depreciation and accumulated impairment losses, i.e., the right-of-use asset is measured using the cost model.

Right-of-use assets are depreciated from the commencement date to the end of the useful life of the subject assets if ownership of the subject assets is transferred to the Group at the end of the lease period or if the cost of the right-of-use assets reflects that the Group will exercise the purchase option. Otherwise, the Group depreciates the right-of-use asset from the commencement date to the earlier of the expiration of the useful life of the right-of-use asset or the expiration of the lease period.

The Group applies IAS 36, "Impairment of Assets", to determine whether a right-of-use asset is impaired and to treat any identified impairment loss.

The Group reports right-of-use assets and lease liabilities in the balance sheet, except for leases that qualify as short-term leases or leases with low-value underlying assets, and reports depreciation expense and interest expense related to leases in the statement of comprehensive income, respectively.

For short-term leases and leases of low-value underlying assets, the Group elects to recognize lease payments related to these leases as an expense over the lease period on a straight-line basis or another systematic basis.

The Group as lessor

The Group classifies each of its leases as operating leases or finance leases at the contract inception date. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to the ownership of the subject asset; if it does not transfer, it is classified as an operating lease. At the commencement date, the Group recognizes assets held under finance leases in the balance sheet and expresses them as finance lease receivables based on the net investment in the leases.

For contracts with lease components as well as non-lease components, the Group applies IFRS 15 to apportion the consideration in the contracts.

The Group recognizes lease payments from operating leases as rental income on a straight-line basis or another systematic basis. Lease payments under operating leases that are not dependent on changes in an index or rate are recognized as rental income as incurred.

15. Intangible assets

Intangible assets acquired separately are measured at cost on initial recognition. The cost of intangible assets acquired through a business merger is the fair value at the date of acquisition. After initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses. Intangible assets that do not meet the criteria for recognition are not capitalized but are recognized in profit or loss as incurred.

The useful lives of intangible assets are classified as finite or indefinite.

Intangible assets with finite useful lives are amortized over their useful lives and are tested for impairment whenever there is an indication of impairment. The amortization period and amortization method of intangible assets with finite useful lives are reviewed at least at the end of each financial year. If the estimated useful life of an asset differs from previous estimates or the expected pattern of future economic consumption has changed, the amortization method or amortization period is adjusted and treated as a change in accounting estimate value.

Intangible assets with indefinite useful lives are not amortized, but are tested for impairment at the individual asset or cash-generating unit level each year. Intangible assets with indefinite useful lives are assessed each period to determine whether events and circumstances continue to support the asset's indefinite useful life. If the useful life is changed from indefinite to finite, the application is deferred.

Gains or losses arising from the derecognition of intangible assets are recognized in profit or loss.
The accounting policy information of the Group's intangible assets is summarized as follows:

	Computer software costs	Other intangible assets
Useful life	2 - 5 years	30 years
Amortization method used	Amortized on a straight-line basis over the life of the contract	Amortized on a straight-line basis over the life of the contract
Internally generated or externally acquired	Externally acquired	Externally acquired

16. Impairment of non-financial assets

The Group assesses at the end of each reporting period whether there is any indication of impairment for all assets subject to IAS 36, "Impairment of Assets". Where there is an indication of impairment or an asset is required to be tested annually for impairment, the Group performs the test on an individual asset or on the cash-generating unit to which the asset belongs. An impairment loss is recognized if the carrying amount of the cash-generating unit to which the asset or asset belongs exceeds its recoverable amount. Recoverable amount is the higher of net fair value and value in use.

The Group assesses at the end of each reporting period, for assets other than goodwill, whether there is any indication that a previously recognized impairment loss may no longer exist or may have decreased. If there is such indication, the Group estimates the recoverable amount of the asset or cash-generating unit. If the recoverable amount increases due to changes in the estimated service potential of the asset, the impairment loss is reversed. The carrying amount of the reversal does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset, net of depreciation or amortization.

Cash-generating units or groups to which goodwill belongs are tested annually for impairment, regardless of whether there is any indication of impairment. If an impairment loss is recognized as a result of an impairment test, goodwill is written off first and any shortfall is allocated to assets other than goodwill in proportion to their carrying amounts. Once an impairment loss on goodwill is recognized, it cannot be reversed for any reason.

The impairment loss and reversal are recognized in profit or loss for the continuing business unit.

17. Treasury stock

When the Group acquires shares of the parent company (treasury stock), the acquisition cost is recognized as a deduction from equity. The difference in the price of the treasury stock transactions is recognized under equity.

18. Recognition of revenue

The Group's revenue from contracts with customers is mainly from the sale of goods, and the accounting treatment is explained as follows:

The Group manufactures and sells products. Revenue is recognized when the promised goods are delivered to the customer and the customer obtains control of the goods (i.e., the customer's ability to control the use of the goods and obtain substantially all of the residual benefits of the goods) primarily for connectors and electronic modules, based on contracted prices. The rest of product sales transactions are usually subject to volume discounts (based on the total cumulative sales in a given period). Accordingly, revenue is based on contracted prices, less estimated volume discounts. The Group estimates the variable consideration arising from volume discounts based on cumulative experience and using expected values, but only to the extent that it is highly probable that there will be no significant reversal in the cumulative amount of revenue recognized when the uncertainty associated with the variable consideration is subsequently removed.

The credit period for the Group's sales of merchandise transactions generally ranges from 60 days to 120 days. The majority of these contracts are recognized when the goods are transferred to the customer's control and the right to receive unconditional consideration is available, which is usually a short period and does not have a significant financial component. A small number of contracts that have been transferred to customers without the right to receive unconditional consideration are recognized as contract assets, and the contract assets are subject to an allowance for loss in accordance with IFRS 9 based on the expected credit loss over the life of the contract.

19. Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets are capitalized as part of the cost of those assets. All other borrowing costs are recognized as expenses in the period in which they are incurred. Borrowing costs include interest and other costs incurred in connection with the borrowing of funds.

20. Post-employment benefit plan

The Company's employee retirement regulations are applicable to all regularly employed employees. The employee retirement fund is managed by the Supervisory Committee of Labor Retirement Reserve and deposited into the special account of the retirement fund. Since the above retirement fund is deposited in the name of the Supervisory Committee of Labor Retirement Reserve and is completely separate from the Company, it is not included in the above consolidated financial statements. The employee retirement regulations for employees of foreign subsidiaries are governed by local laws and regulations.

Under the defined contribution plan, the Company's monthly contribution rate to the post-employment benefit plan shall not be less than 6% of the employee's monthly salary, and the amount contributed shall be recognized as a current expense; for foreign subsidiaries, the contribution shall be made in accordance with the local regulations and recognized as a current expense.

For post-employment benefit plan under that is a defined benefit plan, provision is made on the basis of actuarial report at the end of the annual reporting period in accordance with the projected unit benefit method. The remeasurement of the net defined benefit liability (asset) includes any changes in the remuneration on plan assets and the effect of the asset cap, net of amounts included in net interest on the net defined benefit liability (asset), and actuarial gain and loss.

The remeasurement of the net defined benefit liability (asset) is included in other comprehensive income as incurred and is recognized immediately in retained earnings. The cost of prior service is the change in the present value of the defined benefit obligation resulted from plan amendment or reduction and is recognized as an expense on the earlier of:

(1) when the plan amendment or reduction occurs; and
(2) when the Group recognizes the related restructuring costs or severance benefits.

Net interest on the net defined benefit liability (asset) is determined by multiplying the net defined benefit liability (asset) by the discount rate, both of which are determined at the beginning of the annual reporting period, taking into account any changes in the net defined benefit liability (asset) arising from contributions and benefit payments during that period.

21. Income tax

Income tax expense (benefit) represents the total amount included in the determination of current income tax and deferred income tax for the current period.

Current income tax

Current income tax liabilities (assets) related to current and prior periods are measured using tax rates and laws that have been legislated or substantively enacted by the end of the reporting period. Current income tax related to items recognized in other comprehensive income or recognized directly in equity are recognized in other comprehensive income or equity, respectively, rather than in profit or loss.

Income tax on undistributed earnings is recorded as income tax expense on the date when the shareholders resolve to distribute the earnings.

Deferred income tax

Deferred income tax is calculated on temporary differences between assets and liabilities of tax base and their carrying amounts on the balance sheet at the end of the reporting period.

All taxable temporary differences are recognized as deferred income tax liabilities except for the following:

(1) The initial recognition of goodwill; or it is not generated from a business merger transaction, which affects neither accounting profits nor taxable income (loss) at the time of the transaction, and does not increase an equivalent taxable and deductible temporary difference at the time of the transaction;

(2) Taxable temporary differences arising from investments in subsidiaries, affiliates and interests in joint agreements where the timing of the reversal is controlled and it is probable that they will not reverse in the foreseeable future.

Deferred income tax assets arising from temporary differences, unused tax losses and unused income tax credits are recognized to the extent that it is probable that future taxable income will be available, except for the following:

(1) It is related to the deductible temporary difference arising from the initial recognition of assets or liabilities that are not business merger transactions, which affects neither accounting profits nor taxable income (loss) at the time of the transaction, and does not increase an equivalent taxable and deductible temporary difference at the time of the transaction;

(2) Deductible temporary differences arising from investments in subsidiaries, affiliates and interests in joint agreements are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and there are sufficient taxable instruments available at the time of the reversal to allow the temporary differences to be utilized.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the period in which the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. Deferred income tax assets and liabilities are measured to reflect the tax consequences of the manner in which the carrying amount of the asset is expected to be recovered or the liability settled at the end of the reporting period. Deferred income taxes are not recognized in profit or loss, but are recognized in other comprehensive income or directly in equity, depending on the transaction to which they relate. Deferred income tax assets are revisited and recognized at the end of each reporting period.

Deferred income tax assets and liabilities are offset only to the extent that the offsetting of current income tax assets and liabilities is legally enforceable and the deferred income taxes are attributable to the same taxable entity and are related to income taxes levied by the same taxing authority.

V. Significant Accounting Assumptions and Judgment, And Major Sources of Estimation Uncertainty

The preparation of the Group's consolidated financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities, and the disclosure of contingent liabilities at the end of the reporting period. However, uncertainties in these significant assumptions and estimates could result in material adjustments to the carrying amounts of assets or liabilities in future periods.

1. Judgments

In the process of adopting the Group's accounting policies, management makes the following judgments that have the most significant effect on the recognition of amounts in the consolidated financial statements:

(1) Investment properties

Certain of the Group's real estate is held partly for rental or capital appreciation purposes and partly for the use by the Group. If each component can be sold separately, it is treated as investment property and property, plant and equipment, respectively. If each component cannot be sold separately, the real estate is classified as investment property only when the portion held for the use by the Group accounts for less than 5% of the individual real estate.

(2) Operating lease commitments - The Group as lessor

The Group has entered into commercial real estate leases for its investment property portfolio. Based on the assessment of the terms of these leases, the Group retains significant risks and rewards of ownership of these real estate properties and treats these as operating leases.

2. Estimates and assumptions

The key sources of information about the uncertainty of estimates and assumptions concerning the future at the end of the reporting period have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities in the next fiscal year. It is hereby explained as follows:

(1) Fair value of financial instruments

When the fair value of financial assets and liabilities recognized in the balance sheet is not available in an active market, the fair value is determined using valuation techniques, including the income approach (e.g., discounted cash flow model) or the market approach, and changes in the assumptions used in these models will affect the fair value of the reported financial instruments. Please refer to Note 12 for details.

(2) Impairment of non-financial assets

An impairment loss occurs when the carrying amount of an asset or cash-generating unit exceeds its recoverable amount. The recoverable amount is the higher of fair value less costs to sell and value in use. The calculation of fair value less costs to dispose is based on the price that would be paid to sell an asset or to transfer a liability in an orderly transaction between market participants at the measurement date, less incremental costs directly attributable to the disposal of the asset or cash-generating unit. Value in use is calculated based on a discounted cash flow model. Cash flow projections are based on budgets for the next five years and do not include restructuring to which the Company is not yet committed or significant future investments required to enhance the performance of the tested cash-generating unit assets. Recoverable amounts are susceptible to the discount rates used in the discounted cash flow model and the expected future cash inflows and growth rates used for extrapolation purposes.

Some of the Group's property, plant and equipment are carried at net fair value as recoverable amount because there is no indication that the assets not available for operating use will generate cash flows in future years. As a result of the assessment, the carrying amount of the assets exceeded their recoverable amounts, and therefore, an impairment loss of $4,000 thousand was recognized for the year 2005.

(3) Accounts Receivable - Estimated Impairment Loss

The impairment loss on the Group's receivables is measured using the estimated credit loss over the remaining period. The credit loss is measured as the present value of the difference between the contractual cash flows receivable (carrying amount) and the cash flows expected to be received (valuation forward-looking information), except that the effect of discounting short-term receivables is not significant and the credit loss is measured as the undiscounted difference. If actual future cash flows are less than expected, a material impairment loss may result, as described in Note 6.21.

(4) Post-employment benefit plans

The present value of pension cost and defined benefit obligation of the post-employment benefit plan is based on actuarial evaluation. The actuarial valuation involves various assumptions, including discount rates and changes in expected payroll. For a detailed description of the assumptions used to measure the defined benefit cost and defined benefit obligation, please refer to Note 6.18.

(5) Income tax

Uncertainty in income tax lies in the interpretation of complex tax regulations, the amount of future taxable income that will be generated and the timing. Due to the long-term nature and complexity of extensive international business relationships and contracts, differences between actual results and assumptions made, or future changes in such assumptions, may force future adjustments to recorded income tax benefits and expenses. The provision for income tax is based on reasonable estimates based on probable audits by the tax authorities of the countries in which the Group operates. The amounts provided are based on various factors, such as past tax audit experience and differences in the interpretation of tax regulations by the tax authorities to which the Group belongs. These differences in interpretation may give rise to various issues depending on the location of the Group's individual entities.

Deferred income tax assets are recognized to the extent that it is probable that future taxable income will be available or taxable temporary differences will be deductible from unused tax losses and income tax credits. The determination of the amount of deferred income tax assets to be recognized is based on the timing and level of future taxable income and taxable temporary differences, together with future tax planning strategies.

VI. Summary of Significant Accounting Items

1. Cash and cash equivalents

	2023/12/31	2022/12/31
Cash and petty cash	$115	$247
Demand deposits	4,728,768	1,191,661
Time deposits with maturity within three months	30,705	-
Total	$4,759,588	$1,191,908

2. Financial assets at fair value through profit or loss

	2023/12/31	2022/12/31
Mandatorily measured at fair value through profit or loss:		
Derivatives without designated hedging relationship		
Forward foreign exchange contracts	$6,541	$-
Current	$6,541	$-
Non-current	-	-
Total	$6,541	$-

The Group has not provided financial assets at fair value through profit or loss as guarantees.

3. Financial assets at fair value through other comprehensive income

	2023/12/31	2022/12/31
Investments in equity instruments at fair value through other comprehensive income - non-current		
Shares of unlisted companies	$6,410	$6,410

The Group classifies some financial assets as financial assets at fair value through other comprehensive income, with which no guarantees were provided.

4. Financial assets at amortized cost

	2023/12/31	2022/12/31
Time deposit of more than 3 months	$650,281	$264,566
Current	$433,521	$176,377
Non-current	216,760	88,189
Total	$650,281	$264,566

The Group classifies some financial assets as financial assets at amortized cost and did not provide guarantees. Please refer to Note 12 for information related to credit risk.

5 .Notes receivable, net

	2023/12/31	2022/12/31
Notes receivable - incurred as a result of operations	$30,152	$21,476
Less: Allowance for losses	-	-
Net amount	$30,152	$21,476

The Group has not provided notes receivable as guarantee.

The Group uses IFRS 9 to assess impairment. Please refer to Note 6.21 for information on allowance for losses and Note 12 for information on credit risk.

6. Accounts receivable, net and accounts receivable - related parties

(1) The breakdown of accounts receivable, net and accounts receivable - related parties is as follows:

	2023/12/31	2022/12/31
Accounts receivable - incurred as a result of operations	$1,084,427	$1,158,139
Less: Allowance for losses	(8,140)	(4,558)
Subtotal	1,076,287	1,153,581
Accounts receivable - related parties	65,937	68,262
Less: Allowance for losses	-	-
Subtotal	65,937	68,262
Total	$1,142,224	$1,221,843

The Group's credit period to customers normally ranges from 60 days to 120 days. As of December 31, 2023 and 2022, the total carrying amount wasNTD 1,150,364 thousand and NTD 1,226,401 thousand, respectively, and the related information on allowance for losses for 2023 and 2022 is provided in Note 6.21. Please refer to Note 12 for information on credit risk.

(2) The Group has not provided accounts receivable as guarantee.

7. Inventories

(1) The breakdown of net inventories is as follows:

	2023/12/31	2022/12/31
Raw materials	$15,418	$20,742
Less: Allowance for losses (Note)	(7,316)	(7,929)
Subtotal	8,102	12,813
Work in process	106,606	118,571
Less: Allowance for losses (Note)	(15,792)	(17,829)
Subtotal	90,814	100,742
Finished goods	302,261	349,596
Less: Allowance for losses (Note)	(30,177)	(51,149)
Subtotal	272,084	298,447
Total	$371,000	$412,002

Note: The Group's allowance for inventory losses included NTD 33,538 thousand and NTD 29,840 thousand of reversal of inventory scrapping for 2023 and 2022.

(2) The cost of inventories recognized as expenses for 2023 and 2022 were NTD 2,503,778 thousand and NTD 2,877,544 thousand, respectively, which included the following expenses and losses:

Item	2023	2022
Loss (gain) on inventory valuation (Note)	$(23,170)	$16,652

The Group's recognition of the gain on reversal of inventory devaluation in 2023 was due to the gradual disposal of slow-moving inventories, resulting in a decrease in the Group's slow-moving inventory, and thus the gain on reversal of inventory devaluation.

Note: The Group recognized (reversed) losses of NTD 10,368 thousand and NTD 46,492 thousand due to aged inventory in 2023 and 2022, respectively.

(3) The Group has not provided accounts receivable as a guarantee.

8. Investment accounted for using the equity method

(1) Details of the Group's investments under the equity method are as follows:

	2023/12/31		2022/12/31	
Name of investee	Amount	Shareholding percentage	Amount	Shareholding percentage
Taisol Electronics Co., Ltd.	$583,337	11.79%	$-	-%

(2) Investment in associate companies

The associate companies important to the Group are as follows :

①Company name: Taisol Electronics Co., Ltd.

②Principal place of business (country of registration): Taiwan

③Fair value with quoted price in the open market:

Taisol Electronics Co., Ltd. is listed on the Taiwan Stock Exchange The fair value of the Group's investment in the company using the equity method was NTD 696,662 thousand on December 31, 2023.

(2) The Group issued the third domestic unsecured convertible corporate bonds on November 30, 2023. The main terms of the issue are as follows:

(A) Total amount of issuance:	NTD 500,000 thousand
(B) Date of issue:	2023/11/30
(C) Issuance price:	Issued at 104.18% of the par value
(D) Coupon rate:	0%
(E) Issuance period:	2023/11/30～2026/11/30
(F) Repayment upon maturity:	Unless the bondholder converts into the Company's common shares in accordance with Article 10 of these Regulations, or exercises the right of sale in accordance with Article 19 of these Procedures, or the Company has redeemed the bonds early in accordance with Article 18 of these Procedures, or the bonds are purchased and canceled by the Company from a brokerage firm, the Company shall repay the bonds held by the bondholders in cash at the face value within ten business days following the maturity date of the bonds. In the event that the centralized securities exchange market is closed on the aforementioned dates, it shall be postponed to the next business day.
(G) Conversion period:	The bondholders may redeem the bonds from the day following the expiration of three months after the date of issue of the convertible corporate bonds (March 1, 2024) to the maturity date (November 30, 2026), except (1) book closure period during in accordance with the law, (2) the date on which the book is closed for bonus shares, the date on which the transfer of cash dividends is closed, or the transfer date for capital increase in cash, until the record date for distribution of rights; (3) one day prior to the commencement date of the trading of the shares to be issued in exchange for the capital reduction, and (4) the date on which conversion (subscription) of the change of par value of the shares is canceled other than the date one day prior to the commencement date of trading of the new shares to be exchanged. The bondholder may request the Company's Shareholder Service Agent to convert the principal amount of convertible corporate bonds into common shares of the Company through the Taiwan Depository & Clearing Corporation (hereinafter referred to as the "TDCC") in accordance with these Regulations, and Proceed in accordance with Articles 10, 11, 13 and 15 of these Procedures. The starting date for the cessation of conversion (subscription) of the changed denomination in the preceding paragraph is one business day prior to the application for change registration from the Ministry of Economic Affairs, and the issuing company announce the cessation of conversion period four business days prior to such starting date.
(H) Conversion price and adjustment thereof:	The conversion price is set at NTD 28.50 per share at the time of issuance. In the event that the conversion price of the Company's common share conversion or share options meet the requirements of the terms of issuance, the conversion price will be adjusted according to the formula specified in the terms of the issuance.

(I) The Company's right of redemption:

(1) If the Company's common shares traded over TPEx for 40 consecutive business days exceed the prevailing conversion price by 30% (or more) from the day following the expiration of three months after the issuance date of the bonds (March 1, 2024) to the 40th day prior to the expiration date of the issuance period (October 21, 2026), within the 30th day following the issuance date of the bonds, the Company may send a "Bond Recovery Notice" (the aforesaid period starts from the date of issuance of the letter by the Company, and the expiry date of the period is regarded as the record date for bond recovery; also, the aforementioned period shall not be the period of suspension of conversion as specified in Article 9) to the bondholders (subject to the roster of bondholders on the 5th business day prior to the mailing date of the Bond Recovery Notice; and for those holders who acquire the bonds for subsequent trading or for other reasons, an announcement shall be made). The redemption price is set at the face value of the bonds, and all of its outstanding bonds shall be redeemed in cash. The Company executes the recovery request by redeeming all of its outstanding convertible bonds at the face value of the bonds within five business days following the record date for redemption of the bonds by cash.

(2) If the outstanding balance of the Company's common shares is lower than 10% from the day following the expiration of three months after the issuance date of the bonds (March 1, 2024) to the 40th day prior to the expiration date of the issuance period (October 21, 2026), the Company may send a "Bond Recovery Notice" any time following the issuance date of the bonds (the aforesaid period starts from the date of issuance of the letter by the Company, and the expiry date of the period is regarded as the record date for bond recovery; also, the aforementioned period shall not be the period of suspension of conversion as specified in Article 9) to the bondholders (subject to the roster of bondholders on the 5th business day prior to the mailing date of the Bond Recovery Notice; and for those holders who acquire the bonds for subsequent trading or for other reasons, an announcement shall be made). The redemption price is set at the face value of the bonds, and all of its outstanding bonds shall be redeemed in cash. The Company executes the recovery request by redeeming all of its outstanding convertible bonds at the face value of the bonds within five business days following the record date for redemption of the bonds by cash. When the Company executes the demand for recovery of the bonds, it shall recover the outstanding convertible bonds at the face value of the bonds in cash within 5 business days following the record date of bond recovery.

(3) If the bondholders fail to respond in writing to the Company's stock agency before the record date of the bond call as stated in the "Bond Call Notice" (effective immediately upon the service; the postmark date is used as the basis for mailing orders), the Company will redeem the convertible bonds at the face value of the bonds within 5 business days following the record date of redemption.

(4) If the Company executes the recovery request, the deadline for the bondholders to request for the conversion is the second business day following the date on which the bonds are terminated on TPEx.

(J) Resale option of bondholders:	The record date for the early sell-back of the convertible corporate bonds by the bondholders on the date when the convertible corporate bonds have been issued for two years (November 30, 2025). On or before 40 days prior to the redemption reference date (Octobor 21, 2025), the Company shall send a "Notice of Exercise of Sales Redemption Right" to the bondholders by registered mail (with the title of "Sell-Back Option Notice"; subject to the roster of bondholders on the 5th business day prior to the mailing date of the Bond Recovery Notice; and for those holders who acquire the bonds for subsequent trading or for other reasons, an announcement shall be made). The Company shall send a letter to TPEx to announce the exercise of the sell-back option. The bondholders may, request the Company to redeem the bonds at their face value plus interest compensation by written notice to the Company's transfer agent (effective upon delivery, or by postmark if mailed) within 40 days prior to the record date of the sale. The interest compensation after two years is 101.5056% of the bond face value (real yield is 0.75%). Upon accepting the sale back request, the Company shall redeem the convertible corporate bonds in cash within five business days after the record date of the redemption. In the event that the Taipei centralized securities exchange market is closed on the aforementioned dates, it shall be postponed to the next business day.

(3) As of December 31, 2023, the bonds of the Company had not been converted into shares.

17. Other non-current liabilities

	2023/12/31	2022/12/31
Net defined benefit liabilities	$14,596	$19,551
Deposits received	2,326	3,945
Total	$16,922	$23,496

18. Post-employment benefit plan

Defined contribution plans

The Company's retirement plan under the "Labor Pension Act" is a defined contribution plan. In accordance with the Act, the Company's monthly contribution rate shall not be less than 6% of the employees' monthly salaries. The Company has made monthly contributions of 6% of employees' salaries to the individual pension accounts with the Bureau of Labor Insurance in accordance with the Employee Retirement Regulations, which were formulated in accordance with the Act.

The Company's subsidiaries in Mainland China contribute a certain percentage of the employees' total salaries to the endowment insurance fund in accordance with the local government regulations, which is paid to the relevant government departments and deposited in the dedicated accounts for each employee.

The Group's other foreign subsidiaries and branches contribute pension funds to the relevant pension management businesses in accordance with local laws and regulations.

The Group recognized the expenses of the defined contribution plan in 2023 and 2022 for NTD 3,741 thousand and NTD 3,706 thousand, respectively.

Defined benefit plans

The Company's pension plan under the "Labor Standards Act" is a defined benefit plan under. The pension payments are based on the bases of years of service and the approved monthly average salary at the time of retirement. Two bases are granted for each year of service up to (including) 15 years, and one base is granted for each year of service over 15 years, subject to a maximum accumulation of 45 bases. In accordance with the Labor Standards Act, the Company appropriates monthly 2% of total salaries to a pension fund, deposited in the name of the Supervisory Committee of Labor Retirement Reserve in a dedicated at the Bank of Taiwan. In addition, the Company estimates the balance of the aforementioned pension fund before the end of each year. If the balance is not sufficient to pay the amount of pension benefits to employees eligible for retirement in the following year, the difference will be made up by the end of March of the following year.

The Ministry of Labor conducts asset allocations in accordance with the Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund, and the investment of the fund is conducted by the Ministry itself or through outsourcing, using both active and passive management with medium and long-term investment strategies. The Ministry of Labor sets risk limits and control plans for the fund, taking into account market, credit, and liquidity risks, so that the fund has sufficient flexibility to achieve target returns without excessive risk exposure. For the utilization of the fund, the minimum income to be distributed based on the annual final accounting reports shall not be lower than the income calculated based on the two-year time deposits in a local bank. If there is any shortage, it shall be made up by the national treasury after approval by the competent authority. Because the Company does not have the right to participate in the operations and management of the fund, it cannot disclose the classification of the fair value of plan assets in accordance with section 142 of IAS 19. As of December 31, 2023, NTD 324 thousand is expected to be appropriated from the Company's defined benefit plan in the following year.

As of December 31, 2023 and 2022, the Company's defined benefit plan is expected to expire in 2028 and 2027, respectively.

The following table summarizes the cost of the defined benefit plans recognized in profit or loss.

	2023	2022
Net interest on net defined benefit liabilities (assets)	$292	$162

A reconciliation of the present value of the defined benefit obligation to the fair value of plan assets is as follows:

	2023/12/31	2022/12/31	2022/1/1
Present value of defined benefit obligation	$20,035	$24,614	$27,922
Fair value of plan assets	(5,115)	(4,738)	(4,111)
Subtotal	14,920	19,876	23,811
Estimated appropriation for net defined benefit liabilities in the next year	(324)	(325)	(320)
The amount of other non-current liabilities - net defined benefit liabilities (assets) on the accounting books	$14,596	$19,551	$23,491

Reconciliation of net interest on net defined benefit liabilities (assets):

	Present value of defined benefit obligation	Fair value of plan assets	Net defined benefit liabilities (assets)
2022/1/1	$27,922	$(4,111)	$23,811
Service costs for the period	-	-	-
Interest expense (income)	190	(28)	162
Service costs for the prior period and settlement gains and losses	-	-	-
Subtotal	190	(28)	162
Remeasurement of defined benefit liabilities/assets:			
Actuarial gains or losses from changes in demographic assumptions	-	-	-
Actuarial gains or losses from changes in financial assumptions	(3,112)	(299)	(3,411)
Adjustments through experience	(386)	-	(386)
Remeasurement of defined benefit liabilities	-	-	-
Subtotal	(3,498)	(299)	(3,797)
Benefits paid	-	-	-
Appropriations by employer	-	(300)	(300)
2022/12/31	24,614	(4,738)	19,876
Service costs for the period	-	-	-
Interest expense (income)	362	(70)	292
Service costs for the prior period and settlement gains and losses	-	-	-
Subtotal	362	(70)	292
Remeasurement of defined benefit liabilities/assets:			
Actuarial gains or losses from changes in demographic assumptions	(155)	-	(155)
Actuarial gains or losses from changes in financial assumptions	322	(9)	313
Adjustments through experience	(1,078)	-	(1,078)
Remeasurement of defined benefit liabilities	-	-	-
Subtotal	(911)	(9)	(920)
Benefits paid	(4,030)	4,030	-
Appropriations by employer	-	(4,328)	(4,328)
2023/12/31	$20,035	$(5,115)	$14,920

The following key assumptions were used to determine the Company's defined benefit plans:

	2023/12/31	2022/12/31
Discount rate	1.36%	1.47%
Expected salary increase rate	3.00%	3.00%

Sensitivity analysis for each significant actuarial assumption:

	2023		2022	
	Increase in defined benefit obligation	Decrease in defined benefit obligation	Increase in defined benefit obligation	Decrease in defined benefit obligation
Increase in discount rate by 0.5%	$-	$(1,403)	$-	$(1,755)
Decrease in discount rate by 0.5%	1,534	-	1,917	-
Increase in expected salary increase rate by 0.5%	1,501	-	1,878	-
Decrease in expected salary increase rate by 0.5%	-	(1,388)	-	(1,738)

The foregoing sensitivity analysis was performed to analyze the potential impact on the defined benefit obligation if a reasonably possible change in a single actuarial assumption (e.g., discount rate or expected salary) occurs, assuming other assumptions remained constant. The analysis is limited by the fact that some actuarial assumptions are interrelated and, in practice, changes in only a single actuarial assumption rarely occur.

The method and assumptions used in the sensitivity analysis for the current period are no different from those used in the prior period.

19. Equity

(1) Common stock

As of December 31, 2023 and 2022, the Company's authorized share capital was both NTD 2,000,000 thousand; the issued share capital was NTD 1,172,656 thousand, with a par value of NTD 10 per share, divided into 117,266 thousand shares. Each share has one voting right and is entitled to receive dividends.

On August 5, 2022, the Board of Directors resolved to retire treasury stock and reduce capital by $30,000 thousand, with August 8, 2022 as the base date for the capital reduction. The capital reduction was approved by the Ministry of Economic Affairs with the letter Jing-Shou-Shang-Zi No. 11101162950 on record. After the capital reduction, the authorized capital was $2,000,000 thousand and the issued share capital was $1,197,626 thousand, with a par value of $10 per share, divided into 119,763 thousand shares.

On November 3, 2022, the Board of Directors resolved to retire treasury stock and reduce capital by $24,970 thousand, with November 7, 2022 as the base date for the capital reduction. The capital reduction was approved by the Ministry of Economic Affairs with the letter Jing-Shou-Shang-Zi No. 11101223740 on record. After the capital reduction, the authorized capital was $2,000,000 thousand and the issued share capital was $1,172,656 thousand, with a par value of $10 per share, divided into 117,266 thousand shares.

(2) Capital surplus

	2023/12/31	2022/12/31
Stock options - others	$44,269	$24
Recognition of change in ownership interests in subsidiaries (Note 1)	1,553,211	14,106
Others (Note 2)	87	87
Total	$1,597,567	$14,217

Note 1: Such capital surplus represents the effect of equity transactions recognized for changes in the equity of subsidiaries without actually acquiring the equity in the subsidiaries.

Note 2: This capital reserve represents the exercise of disgorgement.

Capital surplus shall not be used except to make up for losses of the Company, and when the Company has no losses, capital surplus generated from the proceeds from the issuance of shares in excess of par value and the proceeds from the receipt of gifts shall be capitalized as equity up to a certain percentage of the paid-in capital every year, and the aforementioned capital surplus may also be distributed in cash in proportion to the original shareholdings of the shareholders. In addition, capital surplus from long-term equity investments shall not be used for any purpose.

(3) Treasury stock

The Company did not own treasury shares on December 31, 2023 and 2022, and the increase or decrease in the Company's treasury shares during 2022 is as follows:

Reason for recovery	Number of shares at the beginning of the period	Increase during the period	Decrease during the period	Number of shares at the end of the period
2022				
To protect the creditworthiness of the Company and shareholders' equity	- Thousands of shares	5,497 thousand shares	5,497 thousand shares	- Thousands of shares

The Securities and Exchange Act stipulates that the number of shares to be bought back by the Company shall not exceed 10% of the total number of shares issued by the Company, and the total amount of shares to be bought shall not exceed the amount of retained earnings plus premiums on issued shares and realized capital surplus.

(4) Earnings distribution and dividend policy

A. Earnings Distribution

In accordance with the Company's Articles of Incorporation, if the Company makes a net profit in a year as indicated in the annual accounting reports, the Company shall first make up for past losses and secondly set aside 10% as legal reserve and set aside or reverse special reserve in accordance with the law, and if there is any surplus, the Board of Directors shall prepare a proposal for the distribution of earnings after adding the undistributed earnings of previous years. In accordance with Paragraph 5, Article 240 of the Company Act, "When the Company distributes dividends and bonuses in whole or in part in cash, the Board of Directors is authorized to approve the distribution by a resolution of a majority of the directors present, with at least two-thirds of the directors present, and to report the distribution to the shareholders' meeting." In addition, if the Company distributes all or part of the dividends and bonuses by issuance of new shares, the dividends shall be resolved by the shareholders' meeting.

The Company's dividend policy is formulated to support business expansion, based on operating strategies, investment plans, capital budget and changes in internal and external environment. The Company shall set aside at least 20% of the accumulated distributable earnings as dividends to shareholders, of which no less than 10% of the total dividends shall be in cash. Cash dividends less than $0.1 per share calculated in accordance with the above dividend policy shall not be distributed. The Company shall not pay dividends or bonuses, if there is no surplus in earnings.

At the Company's regular shareholders' meeting held on June 13, 2023, the distribution of earnings and dividends per share for 2022 was proposed and resolved as follows:

	Earnings appropriation and distribution proposal	Dividends Per Share (NTD)
	2022	2022
Legal reserve	$15,279	
Provision (reversal) of special reserve	(34,757)	
Cash dividends on common stock	140,718	$1.2
Total	$121,240	

The appropriation and distribution of earnings for 2023 is expected to be proposed by the Board of Directors at the most recent Board meeting following the approval of the financial statements.

Please refer to Note 6.23 for information on the basis of remuneration for employees and directors and the amounts recognized.

B. Legal reserve

Under the Company Act, legal reserve should be appropriated until the total amount of legal reserve reaches total capital. The legal reserve may be used to make up for losses. If the Company has no losses, the excess of legal reserve over 25% of the paid-in capital may be distributed as new shares or cash in proportion to the original shareholdings of shareholders.

The shareholders' meetings held on June 13, 2023 and June 16, 2022 resolved to appropriate NTD 15,279 thousand and NTD18,903 thousand, respectively as legal reserve.

C. Special reserve

Upon the distribution of distributable earnings, a special reserve is provided for the difference between the balance of the special reserve and the net decrease in other equity upon the adoption of IFRSs for the first time. If there is a subsequent reversal of the net deduction from other equity, a special reserve may be reversed to distribute earnings for the portion of the reversal of the net deduction from other equity.

In accordance with the Financial Supervisory Commission's Order Jin-Guan-Zheng-Fa-Zi No. 1090150022 issued on March 31, 2021, a special reserve is provided for the portion of unrealized revaluation increment and cumulative translation adjustments (gain) recorded at the date of transition to IFRSs that is transferred to retained earnings as a result of the adoption of IFRS 1, "First-time Adoption of International Financial Reporting Standards" exemption. The Company may reverse the distributed earnings in proportion to the special reserve originally provided for when the Company uses, disposes of or reclassifies related assets.

The amount of the special reserve applied for the first time by the Company as of January 1, 2023 and 2022 was both NTD 30,933 thousand. There was no reversal of special reserve from January 1 to December 31, 2023 and 2022 due to the use, disposal, or reclassification of related assets. As of December 31, 2023 and 2022, the amount of the special reserve applied for the first time was both NTD 30,933 thousand.

The shareholders' meetings held on June 13, 2023 and June 16, 2022 resolved to appropriate NTD (34,757) thousand and NTD11,392 thousand, respectively as legal reserve.

For information on the distribution of earnings resolved at the shareholders' meeting, please refer to the “Market Observation Post System” of the Taiwan Stock Exchange.

(5) Non-controlling interests

	2023	2022
Balance at the beginning of the period	$528,524	$447,471
Net profit attributable to non-controlling interests for the period	85,655	73,447
Total comprehensive income attributable to non-controlling interests		
Exchange differences on translation of the financial statements of foreign operations	(4,890)	7,606
Change in ownership interests in subsidiaries (Note)	(1,539,105)	-
Increase or decrease in non-controlling interests - Cash capital increase to Singatron Electronic (China) Co., Ltd.	3,556,383	-
Balance at the end of the period	$2,626,567	$528,524

Note: This was due to the non-controlling interests did not participate in the cash capital increase of SINGATRON Electronics (China) Co. Ltd. in accordance with their shareholding percentages, resulting in changes in net equity attributable to non-controlling interests.

20. Operating revenue

	2023	2022
Revenue from contracts with customers		
Revenue from sales of merchandise	$3,451,730	$3,892,540

(1) Breakdown of revenue

2023

	Connectors segment	Electronic module products segment	Total
Merchandise sales	$3,373,350	$78,380	$3,451,730
Timing of revenue recognition:			
At a certain point in time	$3,373,350	$78,380	$3,451,730

2022

	Connectors segment	Electronic module products segment	Total
Merchandise sales	$3,786,338	$106,202	$3,892,540
Timing of revenue recognition:			
At a certain point in time	$3,786,338	$106,202	$3,892,540

(2) Contract balance

Contract liabilities - current

	2023/12/31	2022/12/31	2022/1/1
Sales of merchandise	$2,411	$22,384	$16,964

The Group's 2023 balance of contractual liabilities decreased due to the fact that part of the performance obligations had been met and was recognized as income in the current period.

The increase in the balance of the Group's contract liabilities for 2022 was due to the partial consideration received from customers in advance and the Group's obligation to provide sales of products at a later date.

(3) Transaction price allocated to outstanding performance obligations

There was no need for the Group to provide information on outstanding performance obligations as of December 31, 2023 and 2022 as the Group's contracts were all shorter than one year.

(4) Assets recognized from the cost of acquiring or performing customer contracts

None.

21. Expected credit impairment loss (profit)

	2023	2022
Operating expenses - expected credit impairment losses (gains)		
Accounts receivable	$3,680	$2,078
Other receivables	545	2,303
Total	$4,225	$4,381

For information related to credit risk, please refer to Note 12.

The Group measures receivables (including notes receivable and accounts receivable) with an allowance for losses using the expected credit loss amounts over the duration of existence. The related explanation of the allowance for losses as of December 31, 2023 and 2022 are as follows:

(1) Receivables are divided into groups by considering the credit ratings of transaction counterparties, regions and industries, and the allowance for losses is measured using an allowance matrix.

2023/12/31

Group 1

	Not past due	Days past due					
	(Note)	Within 30 days	31~60 days	61~90 days	91~120 days	More than 121 days	Total

Carrying amount	$26,386	$2,098	$-	$-	$21	$28,505

Note: None of the Group's notes receivable were past due.

(2) Information on the changes in the Group's allowance for losses on notes receivable, accounts receivable and other receivables for 2023 and 2022 are as follows:

	Notes receivable	Accounts receivable	Other receivables
2023/1/1	$-	$4,558	$3,828
Increase (reversal) for the period	-	3,680	545
Effect of exchange rate	-	-	(72)
Written off due to uncollectible	-	(98)	-
2023/12/31	$-	$8,140	$4,301

	Notes receivable	Accounts receivable	Other receivables
2022/1/1	$-	$2,850	$1,510
Increase (reversal) for the period	-	2,078	2,303
Effect of exchange rate	-	97	15
Written off due to uncollectible	-	(467)	-
2022/12/31	$-	$4,558	$3,828

22. Leases

(1) The Group as lessee

The Group leases a number of different assets, including real estate (land, buildings and buildings), machinery and equipment, transportation equipment and other equipment. The lease period of each contract ranges from 2 to 50 years. Some of the contracts stipulate that the lessee may not lend, sublet, assign or otherwise disguise the use of all or part of the leased property to others, or assign the leasehold rights to others, without the consent of the lessor.

The effect of leases on the financial position, financial performance and cash flow of the Group is described as follows:

A. Amount recognized in the balance sheet

(a) Right-of-use assets.

Carrying amount of right-of-use assets

	2023/12/31	2022/12/31
Land	$33,182	$34,729
Buildings	17,880	14,005
Machinery and equipment	-	863
Transportation equipment	9,198	6,918
Other equipment	737	1,229
Total	$60,997	$57,744

(b) Lease liabilities

	2023/12/31	2022/12/31
Lease liabilities	$27,822	$23,138
Current	$14,449	$15,593
Non-current	$13,373	$7,545

For the interest expense of the Group's lease liabilities for 2023 and 2022, please refer to Note 6.24. Financial costs; for the maturity analysis of the lease liabilities as of December 31, 2023 and 2022, please refer to Note 12.5 Liquidity risk management

B. Amounts recognized in statement of comprehensive income

Depreciation of right-of-use assets

	2023	2022
Land	$989	$993
Buildings	8,921	10,374
Machinery and equipment	554	968
Transportation equipment	4,996	4,415
Other equipment	294	1,551
Total	$15,754	$18,301

C. Income and expenses of lessee related to lease activities

	2023	2022
Short-term lease expenses (rental expenditures)	$5,130	$3,081

As of December 31, 2023 and 2022, the Group had no committed short-term lease portfolio and the types of lease objects related to the aforementioned short-term lease expenses were not similar and the related committed amount was NTD 0.

D. Cash outflows of lessee related to lease activities

The Group's total cash outflows for leases amounted to NTD 21,186 thousand and NTD 22,618 thousand for 2023 and 2022, respectively.

(2) The Group as lessor

Please refer to Note 6.10 for disclosures related to the Group's investment properties owned by the Group. Investment properties owned by the Group are classified as operating leases because substantially all the risks and rewards incidental to ownership of the subject assets have not been transferred.

The Group entered into an operating lease contract and received undiscounted lease payments and the total amount for the remaining years on December 31, 2023 and 2022 as follows:

	2023/12/31	2022/12/31
No more than one year	$3,124	$3,827
More than one year but not more than five years	523	2,932
Total	$3,647	$6,759

23. Employee benefits, depreciation and amortization expenses by function are summarized as follows:

Function / Nature	2023			2022		
	Operating costs	Operating expenses	Total	Operating costs	Operating expenses	Total
Employee benefit expense						
Salary expense	$225,584	$263,693	$489,277	$248,574	$263,381	$511,955
Labor and health insurance expenses	50,098	30,932	81,030	53,455	28,757	82,212
Pension expenses	-	4,033	4,033	-	3,868	3,868
Directors' Remuneration	-	8,691	8,691	-	9,209	9,209
Other employee benefits expenses	16,469	6,793	23,262	19,209	7,372	26,581
Depreciation expenses (including investment property and right-of-use assets)	119,406	51,758	171,164	142,940	58,259	201,199
Amortization expenses	5	8,119	8,124	-	4,932	4,932

The Company's Articles of Incorporation provide that if the Company makes a profit in a year, it shall appropriate not less than one-thousandth of the profit as profit sharing remuneration for employees and not more than 3% as profit sharing remuneration for directors, but if the Company has accumulated losses, it shall reserve in advance an amount to make up for the losses. The aforementioned profit sharing remuneration in the form of stock or cash shall be resolved by the Board of Directors with the presence of two-thirds of the directors and the approval of a majority of the directors present, and shall be reported to the shareholders' meeting. For information on the profit sharing remuneration for employees and remuneration to directors approved by the Board of Directors, please visit the Market Observation Post System of the Taiwan Stock Exchange.

Based on the Company's 2023 profitability, the profit sharing remuneration for employees and that for directors were estimated at no less than 1% and no more than 3%, respectively, and the amount of profit sharing remuneration for employees and that for directors and supervisors were recognized as NTD 1,500 thousand and NTD 4,500 thousand, respectively, under salary expenses. The Company's Board of Directors resolved on March 12, 2024 to distribute NTD 1,500 thousand as remuneration to employees and NTD 4,500 as remuneration to directors both in cash, which are inconsistent with the amount recorded as “expenses” in the 2023 financial report difference.

Based on the Company's 2022 profitability, the profit sharing remuneration for employees and that for directors and supervisors were estimated at no less than 1% and no more than 3%, respectively, and the amount of profit sharing remuneration for employees and that for directors and supervisors were recognized as $2,000 thousand and $6,625 thousand, respectively, under salary expenses. On March 3, 2023, the Board of Directors resolved to distribute profit sharing remuneration for employees in the amount of NTD 2,000 thousand and profit sharing remuneration for directors and supervisors in the amount of NTD 6,500 thousand, both in cash. The difference from the profit sharing remuneration for employees of NTD 2,000 thousand and profit sharing remuneration for directors and supervisors of NTD 6,625 thousand recorded as expenses on the financial statements for 2022 were NTD 0 and NTD 125 thousand, respectively, which were mainly due to the change in the estimate and are to be recorded as profit or loss for 2023.

The Group's overseas subsidiaries estimated the total incentive bonuses for employees at NTD 18,500 thousand and NTD 23,000 thousand for 2023 and 2022, respectively, which were included in the consolidated salary expenses.

24. Non-operating income and expenses

(1) Other income

	2023	2022
Rental income	$4,355	$7,619
Interest income		
Bank deposits	30,659	6,392
Financial assets measured at amortized cost	11,121	2,240
Others	52	957
Subtotal	41,832	9,589
Other income - others	16,149	17,375
Total	$62,336	$34,583

(2) Other gains or losses

	2023	2022
Gain (loss) on disposal of property, plant and equipment	$(7,701)	$(11,201)
Gain (loss) on disposal of investment property	23,370	-

Gain (loss) on valuation of financial assets/liabilities at fair value through profit or loss	10,109	(22,945)
Other losses	(9,976)	(4,186)
Gain (loss) on lease modification	(408)	13
Total	$(18,630)	$36,688

(3) Financial costs

	2023	2022
Interest on bank loans	$19,672	$6,934
Interest on lease liabilities	644	1,595
Interest payable on corporate bonds	749	-
Other interest expenses	231	563
Total	$21,296	$9,092

25. Components of other comprehensive income

The components of other comprehensive income in 2023 are as follows:

	Occurred during the period	Current reclassification adjustment	Subtotal	Income tax benefit (expense)	After-tax amount
Items not reclassified subsequently to profit or loss:					
Remeasurement of defined benefit plans	$920	$-	$920	$-	$920
Items that may be reclassified subsequently to profit or loss:					
Exchange differences on translation of the financial statements of foreign operations	(42,255)	-	(42,255)	7,473	(34,782)
Share of other comprehensive income of associate companies and joint ventures under the equity method	(1,479)	-	(1,479)	-	(1,479)
Total other comprehensive income for the period	$(42,814)	$-	$(42,814)	$7,473	$(35,341)

The components of other comprehensive income for 2022 were as follows:

	Occurred during the period	Reclassified or adjusted during the period	Subtotal	Income tax benefit (expense)	After-tax amount
Items not reclassified subsequently to profit or loss:					
Remeasurement of defined benefit plans	$3,797	$-	$3,797	$-	$3,797
Items that may be reclassified subsequently to profit or loss:					
Exchange differences on translation of the financial statements of foreign operations	51,052	-	51,052	(8,689)	42,363
Total other comprehensive income for the period	$54,849	$-	$54,849	$(8,689)	$46,160

26. Income tax

(1) Major components of tax expense (benefit) were as follows:

Income tax recognized in profit or loss

	2023	2022
Current income tax expense (benefit)		
Current income tax payable	$47,997	$58,070
Adjustments to the current income taxes of prior periods made in the period	(6,752)	(10,082)
Deferred income tax expense (benefit):		
Deferred income tax expense related to the original generation and reversal of temporary differences	37,339	57,295
Write-down of deferred income tax	(8,950)	669
Income tax expense	$69,634	$105,952

Income tax recognized in other comprehensive income

	2023	2022
Deferred income tax expense (benefit):		
Exchange differences on translation of the financial statements of foreign operations	$(7,473)	$8,689

(2) Reconciliation of income tax expense to accounting profit multiplied by the applicable income tax rate is as follows:

	2023	2022
Net profit before tax from continuing operations	$333,066	$401,907
Tax based on domestic tax rates applicable to income from related countries	$90,997	$126,680
Income tax levied on undistributed earnings	4,606	2,874
Income tax effect of non-deductible expenses on tax returns	1,186	387
Income tax effect of deferred income tax assets/liabilities	(6,473)	1,835
Adjustments to the current income taxes of prior periods made in the period	(6,752)	(10,082)
Other income tax effects as adjusted in accordance with tax laws	(13,930)	(15,742)
Total income tax expense recognized in profit or loss	$69,634	$105,952

(3) Balance of deferred income tax assets (liabilities) related to the following items:

2023

	Balance at the beginning of the period	Recognized in profit or loss	Recognized in other comprehensive income	Balance at the end of the period
Temporary differences				
Loss on decline in value of inventories and slow-moving inventories.	$6,401	$(261)	$-	$6,140
Investment income	(400,518)	(48,569)	-	(449,087)
Exchange losses (gains)	(446)	(834)	-	(1,280)
Exchange losses (gains)	441	(441)	-	-
Expected credit impairment losses	606	457	-	1,063

Loss carryforwards	-	10,658	-	10,658
Deferred income tax (expense)/benefit:		$(57,295)	$(8,689)	
Net deferred tax assets (liabilities)	$(287,770)			$(353,754)
The information shown in the balance sheet is as follows:				
Deferred tax income assets	$48,963			$47,599
Deferred income tax liabilities	$(336,733)			$(401,353)

(4) Unrecognized deferred income tax assets

As of December 31, 2023 and 2022, the Group had unrecognized deferred income tax assets totaling NTD 7,590 thousand and NTD 16,029 thousand, respectively.

(5) Information on the Group's consolidated unused income tax credits for loss carryforward was as follows:

A. Parent company

	Unused balance		
Year of occurrence	2023/12/31	2022/12/31	Final deductible year
2022	$53,290	$53,290	2032
2023 (Estimate)	71,244	-	2033
Total	$124,534	$53,290	

B. Subsidiaries

	Unused balance		
Year of occurrence	2023/12/31	2022/12/31	Final deductible year
2021	$1,509	$24,377	2031
2022	1,581	2,451	2032
Total	$3,090	$26,828	

(6) Assessment of Income tax returns

As of December 31, 2023, the Company's income tax returns had been assessed up to 2021.

27. Earnings per share

Basic earnings per share is calculated based on the net profit attributable to holders of common stock of the parent company for the year divided by the weighted-average number of common stock outstanding during the year.

Diluted earnings per share is calculated by dividing the net income attributable to holders of common stock of the parent company for the year, adjusted for the effect of dilution, by the weighted-average number of common stock outstanding for the year plus the weighted-average number of common stock to be issued upon conversion of all dilutive potential common stock into common stock.

(1) Basic earnings per share

	2023	2022
Net profit attributable to holders of common stock of the Company (Thousands of NTD)	$177,777	$222,508
Weighted average number of common shares for basic earnings per share (thousands of shares)	117,266	120,300
Basic earnings per share (NTD)	$1.52	$1.85

(2) Diluted earnings per share

	2023	2022
Net profit attributable to holders of common stock of the Company (Thousands of NTD)	$177,777	$222,508
Interest on convertible corporate bonds (NTD thousand)	599	-
Valuation adjustment of financial liabilities measured at fair value through profit or loss (NTD thousand)	(720)	-
Net income to common stockholders after adjustment for dilution (NTD thousand)	$177,656	$222,508
Weighted average number of common shares for basic earnings per share (thousands of shares)	117,266	120,300
Dilutive effect:		
Profit sharing remuneration for employees - Stock (thousands of Shares)	64	109
Convertible bonds (thousand shares)	1,538	-
Weighted-average number of common shares after adjustment for dilutive effect (thousands of shares)	118,868	120,409
Diluted earnings per share (NTD)	$1.49	$1.85

(3) There were no other transactions that materially changed the outstanding common shares or potential common shares at the end of the period after the reporting period and before the publication of the financial statements.

28. Changes in ownership interests in subsidiaries

New shares issued by the subsidiary's capital increase were not subscribed in proportion to the shareholding.

SINGATRON Electronics (China) Co. Ltd. increased capital and issued new shares on July 17, 2023, but the Group did not subscribe to its issues, reducing its ownership to 61.1986%. The cash of the capital increase obtained by the Group was NTD 3,556,383 thousand, and the carrying amount of net assets of SINGATRON Electronics (China) Co. Ltd. was NTD 3,069,223 thousand. The related equity of SINGATRON Electronics (China) Co. Ltd. included the increase in non-controlling interests is as follows:

Cash received from the Group for capital increase	$3,556,383
Increase in non-controlling interests	(2,014,894)
Difference of capital reserve recognized in equity	$1,541,489

29. Subsidiaries with significant non-controlling interests

Financial information on subsidiaries with significant non-controlling interests is presented below:

Percentage of interests held by non-controlling interests.

Name of subsidiary	Country where the subsidiary is located and operates	2023/12/31	2022/12/31
SINGATRON Electronics (China) Co. Ltd. and subsidiaries	Mainland China	38.8014%	18.1132%

Cumulative balance of significant non-controlling interests:	2023/12/31	2022/12/31
SINGATRON Electronics (China) Co. Ltd. and subsidiaries	$2,626,567	$528,524

Interests allocated to significant non-controlling interests:	2023	2022
SINGATRON Electronics (China) Co. Ltd. and subsidiaries	$85,655	$73,447

Aggregate financial information on these subsidiaries is provided below and is based on amounts before inter-company (transaction) eliminations.

Aggregate information on the profit or loss of SINGATRON Electronics (China) Co., Ltd. and its subsidiaries for 2023 and 2022 is summarized as follows:

	2023	2022
Operating revenue	$3,433,249	$3,866,139
Net profit from continuing operations for the period	319,435	405,488
Total comprehensive income for the period	321,203	412,427

Aggregate information on the assets and liabilities of SINGATRON Electronics (China) Co., Ltd. and its subsidiaries as of December 31, 2023 and 2022 is summarized as follows:

	2023/12/31	2022/12/31
Current assets	$6,784,055	$3,094,239
Non-current assets	953,309	860,892
Current liabilities	940,885	1,003,363
Non-current liabilities	16,861	11,681

Aggregate information on the cash flows of SINGATRON Electronics (China) Co., Ltd. and its subsidiaries for 2023 and 2022 is summarized as follows:

	2023	2022
From operating activities	$574,059	$853,302
Investing activities	(528,041)	(396,214)
Financing activities	3,544,648	(20,351)
Net increase (decrease) in cash and cash equivalents	3,591,619	441,506

VII. Related-party transactions

1. The related parties with whom the Group had transactions during the financial reporting period were as follows:

Name and relationship of related party

Name of related party	Relationship with the Group
SINGATRON ENTERPRISE CO., LTD.－U.S.A (SEC－U.S.A)	Other related parties (the Chairperson of the Company is a relative within second degree of kinship of the Chairperson of the related party)

2. Significant transactions with related parties

(1) Sales

	2023	2022
Other related parties	$276,940	$306,548

The price of sales to related parties is the same as that of general customers, and the collection terms for related parties are 90 days after the monthly cut-off day, while the collection terms for general customers are 60 to 120 days after the monthly cut-off day.

(2) The commission to the other related party - SEC-U.S.A - is calculated on the gross profit from the sales of the Group's own products to customers referred by SEC-U.S.A. The commission expenses of NTD 3,330 thousand and NTD 7,345 thousand were recognized in 2023 and 2022, respectively, and were recorded as selling expenses - commission expenses.

(3) Accounts receivable - related parties

	2023/12/31	2022/12/31
Other related parties	$65,937	$68,262
Less: Allowance for losses	-	-
Net amount	$65,937	$68,262

(4) Remuneration of key management personnel of the Group

	2023	2022
Short-term employee benefits	$40,323	$46,009
Post-employment benefits	181	181
Total	$40,504	$46,190

Please refer to the Annual Report for shareholders' meeting for more information on the total remuneration paid to the key management personnel listed above.

VIII. Pledged assets

The Group had the following assets pledged as collaterals:

Item	Carrying amount 2023/12/31	Carrying amount 2022/12/31	Content of secured debts
Property, plant and equipment - land	$117,248	$117,248	Borrowing collaterals
Property, plant and equipment - buildings	76,294	78,703	Borrowing collaterals
Investment properties - land	-	13,949	Borrowing collaterals
Investment properties - buildings	-	8,655	Borrowing collaterals
Investment accounted for using the equity method	573,023	-	Borrowing collaterals
Total	$766,565	$218,555	

IX. Significant contingent liabilities and unrecognized commitments

1. The Group entered into a technology and patent license contract with Company A on July 1, 2012, under which the Group shall bear a certain amount of the technology license fee and the royalties shall be calculated based on sales volume and the agreed royalties per unit for the use of the technology license after mass production. In 2023, the Group recognized NTD 20,555 thousand in patent expenses, which were recorded as selling expenses, of which NTD 4,653 thousand was unpaid and recorded as other payables.

2. The Company's Board of Directors resolved on February 8, 2021, March 19, 2021, June 17, 2021, and June 14, 2022, March 7 and May 24, 2023 respectively, to approve the relevant commitments in response to the proposed listing of its subsidiary, SINGATRON Electronics (China) Co., Ltd., on the Growth Enterprise Market of the Shenzhen Stock Exchange in China. The Company assesses that these commitments have no material adverse impact on the finance and business matters of the Group and have complied with the relevant requirements. The relevant commitments include, but are not limited to the following:

   With respect to SINGATRON Electronics (China) Co., Ltd. and its subsidiaries, the Company is willing to unconditionally bear or compensate for the related losses if the authority requires or determines that the Company is required to pay back the social insurance charges, housing provident fund or related loss of fines and loss of endowment of related tax benefits prior to the IPO and listing. In 2023, some of the employees of SINGATRON Electronics (China) Co. Ltd. and its subsidiaries requested the Company to make back-up payments for the social insurance and housing provident funds that had not been paid or not adequately paid in the past. The back-up payment amounted to NTD 6,175 thousand (RMB 1,408 thousand) was recorded in the operating expenses and non-operating income and expense - other gains and losses.

   In addition, the Company listed the commitments made on February 8, 2021 and March 19, 2021 in the report to the shareholders' meeting on July 16, 2021; The commitments made on June 17 were included in the report to the shareholders' meeting on June 16, 2022; the commitments made on June 14, 2022 and March 7, 2023 were included in the report to the shareholders' meeting on June 13, 2023. Please refer to the "Market Observation Post System" of the Taiwan Stock Exchange for related information.

X. Losses Due to Major Disasters

No such matter.

XI. Significant Subsequent Events

No such matter.

XII. Others

Financial instruments

1. Categories of financial instruments

Financial assets

Corporate bonds payable	466,688	-
Deposits received	2,326	3,945
Total	$2,400,202	$1,733,753

2. Financial risk management objectives and policies

The Group's financial risk management objectives are mainly to manage market risk, credit risk and liquidity risk associated with operating activities. The Group identifies, measures and manages the aforementioned risks in accordance with the Group's policies and risk appetite.

The Group has established appropriate policies, procedures and internal controls for the aforementioned financial risk management in accordance with the relevant regulations. Significant financial activities are subject to review by the Board of Directors and the Audit Committee in accordance with relevant regulations and internal control systems. During the execution of financial management activities, the Group is required to comply with the relevant regulations on financial risk management.

3. Market risk

The Group's market risk is the risk of fluctuations in the fair value or cash flows of financial instruments due to changes in market prices. Market risk mainly includes exchange rate risk, interest rate risk and other price risk (e.g. equity instruments).

In practice, it is rare for a single risk variable to change in isolation, and changes in each risk variable are usually correlated. However, the following sensitivity analysis of each risk does not consider the interaction of related risk variables.

Exchange rate risk

The Group's exchange rate risk relates primarily to operating activities (when revenues or expenses are denominated in currencies different from the Group's functional currency) and net investments in foreign operations.

The Group's foreign currency receivables and payables are partly in the same currency, in which case, a significant position of the receivables and payables will have a natural hedge effect, while forward exchange contracts are used to manage the exchange rate risk for some foreign currency amounts. As the aforementioned natural hedge and the management of exchange rate risk by means of forward exchange contracts do not meet the requirements of hedge accounting and therefore hedge accounting is not applied; in addition, the net investment in foreign operations is a strategic investment and therefore, the Group does not hedge for it.

The sensitivity analysis of the Group's exposure to exchange rate risk focuses on the impact on the Group's profit or loss and equity of the appreciation/depreciation of the relevant foreign currencies for major foreign currency monetary items at the end of the financial reporting period. The Group's exposure to exchange rate risk is mainly affected by fluctuations in the USD exchange rate and the information on the sensitivity analysis is as follows:

When RMB had strengthened/weakened 1% against USD, the Group's profit or loss would have decreased/increased by RMB 2,824 thousand and RMB 2,993 thousand for 2023 and 2022, respectively.

Interest rate risk

Interest rate risk is the risk of fluctuations in the fair value of financial instruments or future cash flows due to changes in market interest rates. The Group's interest rate risk mainly arises from investments in floating rate debt instruments, fixed rate borrowings and floating rate borrowings.

The sensitivity analysis of interest rate risk focuses on the interest rate exposures at the end of the financial reporting period, including floating rate investments and floating rate borrowings, and assuming that these exposures had been held for one year, when interest rate had increased/decreased by 0.1%, the Group's profit or loss would have decreased/increased by NTD 239 thousand and NTD 432 thousand for 2023 and 2022, respectively.

Equity price risk

The fair value of unlisted equity securities held by the Group could be affected by the uncertainty of the future value of the investment subjects. The unlisted equity securities held by the Group are included in the category at fair value through other comprehensive income. The Group manages the price risk of equity securities by diversifying its investments and setting limits on investments in equity securities, both individually and in the aggregate. Information on equity securities portfolio is provided to the Group's senior management on a regular basis, and the Board of Directors reviews and approves all investment decisions on equity securities.

For the fair value hierarchy of other equity instruments in Level 3, please refer to Note 12.9 for information on sensitivity analysis.

4. Credit risk management

Credit risk refers to the risk that the counterparties will not be able to fulfill their obligations under contracts, resulting in financial losses. The Group's credit risk is attributable to operating activities (mainly accounts and notes receivable) and financing activities (mainly bank deposits and various financial instruments).

Each of the Group's units manages credit risk in accordance with its policies, procedures and controls over credit risk. All the credit risks of counterparties are evaluated by taking into account the financial positions of the counterparties, their ratings by credit rating agencies, historical transaction experience, the current economic environment and the Group's internal ratings, etc. The Group also uses certain credit enhancement tools (such as advance receipts and insurance) at appropriate times to reduce the credit risks of specific counterparties.

As at December 31, 2023 and 2022, the percentages of receivables from the Group's top ten customers to the Group's total receivables were 65.22% and 56.90%, respectively, and the credit concentration risk of the remaining receivables was relatively insignificant.

The Group's finance department manages the credit risk of bank deposits and other financial instruments in accordance with the Group's policies. The Group's counterparties are creditworthy banks and investment-grade financial institutions, corporate organizations and governmental authorities as determined by the Group's internal control procedures, so there is no significant credit risk.

The Group uses IFRS 9 to assess expected credit losses. Other than receivables, investments in debt instruments not measured at fair value through profit or loss are initially acquired on the premise that the credit risk is low. At each balance sheet date, an assessment is made of whether the credit risk has increased significantly since the initial recognition to determine the method of measuring the allowance for losses and its loss rate. As of December 31, 2023 and 2022, the Group did not hold any investments in debt instruments not measured at fair value through profit or loss.

In addition, the Group writes off financial assets when it is assessed that recovery is not reasonably expected, such as when the issuer or the debtor is in significant financial difficulty or has become insolvent.

5. Liquidity risk management

The Group maintains financial flexibility through cash and cash equivalents and contracts such as bank borrowings. The following table summarizes the maturity profile of payments under contracts for the Group's financial liabilities, based on the earliest possible date on which repayment may be required and the undiscounted cash flows thereof, including agreed interest. The undiscounted amount of interest cash flows payable at floating interest rates is derived from the curve yield at the end of the reporting period.

Non-derivative financial liabilities

	Less than 1 year	1 to 5 years	Total
2023/12/31			
Loans	$414,656	$543,541	$958,197
Payables	981,626	-	981,626
Lease liabilities	15,235	13,664	28,899
Convertible corporate bonds	-	500,000	500,000
2022/12/31			
Loans	$625,524	$76,761	$702,285
Payables	1,007,928	-	1,007,928
Lease liabilities	16,067	7,709	23,776

Derivative financial assets (liabilities)

	Less than 1 month	1 to 3 months	3 months to 1 year	More than 1 year	Total
2023/12/31					
Inflows	$162,267	$329,817	$466,154	$-	$958,238
Outflows	(162,859)	(324,638)	(464,200)	-	(951,697)
Net amount	$(592)	$5,179	$1,954	$-	$6,541
2022/12/31					
Inflows	$143,453	$344,014	$319,179	$-	$806,646
Outflows	(147,291)	(345,462)	(316,469)	-	(809,222)
Net amount	$(3,838)	$(1,448)	$2,710	$-	$(2,576)

The above disclosures regarding derivative financial assets (liabilities) are presented using undiscounted net cash flows.

6. Reconciliation of liabilities from financing activities

Information on reconciliation of liabilities for 2023:

	Long/short-term loans	Deposits received	Lease liabilities	Corporate bonds payable	Total liabilities from financing activities
2023/1/1	$696,166	$3,945	$23,138	$-	$723,249
Cash flows	223,524	(1,619)	(16,056)	520,920	726,769
Non-cash flows	-	-	20,740	(54,232)	(33,492)
2023/12/31	$919,690	$2,326	$27,822	$466,688	$1,416,526

Information on reconciliation of liabilities for 2022:

	Long/short-term loans	Deposits received	Lease liabilities	Total liabilities from financing activities
2022/1/1	$386,666	$2,849	$39,543	$429,058
Cash flows	309,500	1,096	(19,537)	291,059
Non-cash flows	-	-	3,132	3,132
2022/12/31	$696,166	$3,945	$23,138	$723,249

7. Fair value of financial instruments

(1) Valuation techniques and assumptions used to measure fair value

Fair value is the price that would be paid to sell an asset or to transfer a liability in an orderly transaction between market participants at the measurement date. The methods and assumptions used by the Group to measure or disclose the fair value of financial assets and financial liabilities are as follows:

A. The carrying amounts of cash and cash equivalents, receivables, payables and other current liabilities are reasonable approximations of fair values, primarily due to the short maturities of such instruments.

B. The fair values of financial assets and liabilities traded in active markets with standard terms and conditions are determined by reference to quoted market prices (e.g., listed stocks, beneficiary certificates, bonds and futures).

C. The fair value of equity instruments that are not traded in an active market (e.g., listed private stocks, publicly traded stocks without an active market, and unlisted stocks) is estimated using the market approach by using prices derived from market transactions of equity instruments of the same or comparable companies and other relevant information (e.g., lack of liquidity discount factor, price to earnings ratio of similar companies' stocks, price to equity ratio of similar companies' stocks, etc.).

D. The fair value of investments in debt instruments, bank loans and other non-current liabilities that do not have active market quotations are determined based on counterparty quotations or valuation techniques, which are based on discounted cash flow analysis. The assumptions on interest rates and discount rates are based on information related to similar instruments (e.g., TPEx reference yield curve, Reuters average interest rate quotations for commercial papers and credit risk).

E. The fair value of derivative financial instruments without active market quotations, including non-optional derivative financial instruments, is calculated by discounted cash flow analysis using counterparty quotations or the applicable yield rate curve for the duration of existence.

(2) Fair value of financial instruments at amortized cost

Among the Group 's financial instruments measured at amortized cost, except for the carrying amount of cash and cash equivalents, receivables, payables and other current liabilities that are reasonable and approximate to fair value, the fair value of the rest of the financial instruments measured at amortized cost is stated as follows:

	Carrying amount	
	2023/12/31	2022/12/31
Financial liabilities:		
Corporate bonds payable	$466,688	$-

	Fair value	
	2023/12/31	2022/12/31
Financial liabilities:		
Corporate bonds payable	$473,650	$-

(3) Information related to the fair value hierarchy of financial instruments

Please refer to Note 12.9 for information on the fair value hierarchy of the Group's financial instruments.

8. Derivative instruments

Information on the Group's derivative financial instruments that did not meet hedge accounting and were outstanding as of December 31, 2023 and 2022 is as follows:

Forward foreign exchange contracts

Forward foreign exchange contracts are used to manage the risk exposure of certain transactions, but are not designated as hedging instruments. The forward exchange contracts were as follows (in thousands of foreign currencies):

Item	Contract amount	Period
2023/12/31		
Forward foreign exchange contracts	Sell USD31,200	2023/7/28～2024/7/22
2022/12/31		
Forward foreign exchange contracts	Sell USD26,500	2022/07/15～2023/06/21

Embedded financial derivatives

The embedded derivative financial instrument identified by the Group due to the issuance of convertible corporate bonds has been separated from the main contract and disposed at fair value through profit and loss. For the contract information of this transaction, please refer to Note 6.

9. Fair value hierarchy

(1) Definition of fair value hierarchy

All assets and liabilities measured or disclosed at fair value are categorized into their respective fair value hierarchy based on the lowest level of input value that is significant to the overall fair value measurement. The input vales for each level are as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2: refers to the direct or indirect observable input value of asset or liability further to the quotation of Level 1.

Level 3: the unobservable input value of asset or liability.

Assets and liabilities recognized in the financial statements on a recurring basis are reassessed at the end of each reporting period to determine whether transfers between levels of the fair value hierarchy have occurred.

(2) Information on the hierarchy of fair value measurements

Information on the fair value hierarchy for recurring assets and liabilities is presented below:

December 31, 2023:

	Level 1	Level 2	Level 3	Total
Assets at fair value:				
Investments in equity instruments at fair value through other comprehensive income	$-	$-	$6,410	$6,410
Financial assets at fair value through profit or loss:				
Forward foreign exchange contracts	$-	$6,541	$-	$6,541
Liabilities at fair value:				
Embedded derivatives	$-	$-	$2,050	$2,050

December 31, 2022:

	Level 1	Level 2	Level 3	Total
Assets at fair value:				
Investments in equity instruments at fair value through other comprehensive income	$-	$-	$6,410	$6,410
Liabilities at fair value:				
Financial liabilities at fair value through profit or loss:				
Forward foreign exchange contracts	$-	$2,576	$-	$2,576

Transfer between Level 1 and Level 2 of fair value hierarchy

There were no transfers between Level 1 and Level 2 of fair value hierarchy for the Group's assets and liabilities at fair value on a recurring basis in 2023 and 2022.

Details of changes in Level 3 of the recurring fair value hierarchy

The Group's assets measured at repetitive fair value from January 1, 2023 and 2022 to December 31, 2022 are classified as Level 3 fair value, and there was no change in the balance from the beginning to the end of the period.

For the Group's liabilities measured at repetitive fair value from January 1 to December 31, 2023, the adjustment from the beginning to the closing balance is as follows:

	Derivatives at fair value through profit or loss
2023/1/1	$-
Issued in the current period	(2,950)
Total profit and loss recognized in the current period	
Recognized as gains and losses (under "Other gains and losses")	900
2023/12/31	$(2,050)

In the above total profit (loss) recognized in profit or loss, the profit and loss related to the assets held as of December 31, 2023 was NTD 900 thousand.

Information on significant unobservable input values in Level 3 of fair value hierarchy

Except for the unquantified unobservable inputs for structured time deposits, whose fair prices were the previous trading prices, the significant unobservable input values used for fair value measurement for assets in Level 3 of fair value hierarchy that are measured at fair value on a recurring basis are presented in the following table:

December 31, 2023:

	Valuation techniques	Significant unobservable input values	Quantitative information	Relationship between input values and fair value	Sensitivity analysis of the relationship between input values and fair value relationship
Financial assets:					
Financial assets at fair value through other comprehensive income					
Stock	Market method	Lack of liquidity discount	20%	The higher the degree of illiquidity, the lower the fair value estimate	When the percentage of illiquidity increases (decreases) by 10%, the Group's profit or loss would decrease/increase by $641 thousand

	Valuation techniques	Significant unobservable input values	Quantitative information	Relationship between input values and fair value	Sensitivity analysis of the relationship between input values and fair value relationship
Financial liabilities:					
Financial liabilities measured at fair value through profit or loss					
Embedded financial derivatives	Binary tree convertible pricing model	Volatility rate	34.48%	The higher the volatility, the higher the fair value estimate	When the volatility increases (decreases) by 1%, the Group's income will decrease by NTD 0 and NTD 50 thousand, respectively.

December 31, 2022:

	Valuation techniques	Significant unobservable input values	Quantitative information	Relationship between input values and fair value	Sensitivity analysis of the relationship between input values and fair value relationship
Financial assets:					
Financial assets at fair value through other comprehensive income					
Stock	Market method	Lack of liquidity discount	20%	The higher the degree of illiquidity, the lower the fair value estimate	When the percentage of illiquidity increases (decreases) by 10%, the Group's profit or loss would decrease/increase by $641 thousand

Valuation process for Level 3 fair value measurement

The Group's finance department is responsible for carrying out fair value tests to ensure that the valuation results approximate market conditions, that the sources of information are independent, reliable, consistent with other sources and representative of executable prices, and that changes in the value of assets and liabilities that are subject to remeasurement or reassessment in accordance with the Group's accounting policies are analyzed at each reporting date to ensure that the valuation results are reasonable.

(3) Information on the fair value hierarchy for items that are not measured at fair value but require such disclosure

December 31, 2023:

	Level 1	Level 2	Level 3	Total
Assets with disclosure of fair value only:				
Investment property (see Note 6.10)	$-	$-	$134,604	$134,604

December 31, 2022:

	Level 1	Level 2	Level 3	Total
Assets with disclosure of fair value only:				
Investment property (see Note 6.10)	$-	$-	$180,347	$180,347

10. Information on foreign-currency financial assets and liabilities

Information on the Group's foreign-currency financial assets and liabilities is as follows:

In thousands of foreign currency

	2023/12/31			2022/12/31		
	Foreign Currency	Exchange rate	NTD	Foreign Currency	Exchange rate	NTD
Financial assets						
Monetary items:						
USD	$45,352	30.6987	$1,392,241	$47,953	30.7100	$1,472,620
RMB	$1,142,349	4.3352	$4,952,309	$210,572	4.3837	$923,075
Financial liabilities						
Monetary items:						
USD	$9,644	30.7037	$296,092	$10,156	30.7019	$311,811
RMB	$143,439	4.3352	$621,838	$149,651	4.4094	$659,876

The above information is based on the carrying amount in foreign currency (converted to functional currency).

Due to the wide variety of currencies consolidated by the Group, it is not possible to disclose information on exchange gains and losses on monetary financial assets and financial liabilities by each foreign currency with significant impact. The Group's foreign currency exchange gains (losses) amounted to NTD 34,024 thousand and NTD 75,007 thousand in 2023 and 2022, respectively.

11. Capital management

The primary objective of the Group's capital management is to ensure the maintenance of sound credit ratings and good capital ratios to support corporate operations and maximize shareholders' equity. The Group manages and adjusts its capital structure according to economic conditions, which may be achieved by adjusting dividend payments, returning capital or issuing new shares for the purpose of maintaining and adjusting the capital structure.

XIII. Other disclosures

(I) Information on Significant Transactions:

1. The Company's provision of financial accommodations to others: None.

2. The Company's endorsements and guarantees for others: Please refer to Exhibit 1 for details.

3. Marketable securities held by the Company at the end of the period (excluding investment in subsidiaries, affiliates and joint ventures): Please refer to Exhibit 2 for details.

4. Acquisition or sale by the Company of the same security with the accumulated cost exceeding NTD 300 million or 20% of the Company's paid-in capital: Please refer to Exhibit 3 for details.

5. Acquisition of real estate by the Company exceeding $300 million or 20% of paid-in capital or more: None.

6. Disposal of real estate by the Company exceeding $300 million or 20% of paid-in capital or more: None.

7. Purchases or sales of goods between the Company and related parties reaching $100 million or 20% of paid-in capital or more: None.

8. The Company's receivables from related parties reaching $100 million or 20% of paid-in capital or more: None.

9. The Company's engagement in derivative instruments: None.

10. Business relationships and significant intercompany transactions between the parent company and subsidiaries and between subsidiaries and the amounts involved: Please refer to Exhibit 8 for details.

(II) Information on Investees:

1. Information on the investee over which the Company has significant influence or control should be disclosed (excluding the investees in Mainland China): Please refer to Exhibit 4 for details.

2. If the Company has control over an investee, it should disclose the information in Note 13(1) on the investee.

2.1 Financing to others: Please refer to Exhibit 5 for details.

2.2 Endorsements and guarantees for others: Please refer to Exhibit 1 for details.

2.3 Marketable securities held at the end of the period (excluding investment in subsidiaries, affiliates and joint ventures): None.

2.4 Acquisition or sale of the same security with the accumulated cost exceeding $300 million or 20% of the Company's paid-in capital: None.

2.5 Acquisition of real estate exceeding $300 million or 20% of paid-in capital or more: None.

2.6 Disposal of real estate exceeding $300 million or 20% of paid-in capital or more: None.

2.7 Purchases or sales of goods from or to related parties reaching NTD 100 million or 20% of paid-in capital or more: Please refer to Exhibit 6 for details.

2.8 Receivables from related parties reaching NTD 100 million or 20% of paid-in capital or more: Please refer to Exhibit 7 for details.

2.9 Engagement in derivative instruments: Please refer to Exhibit 12.8 for details.

(III) Information on Investment in Mainland China:

1. Information on investees in Mainland China, showing the name, principal business activities, paid-in capital, investment method, inward and outward remittance of funds, shareholding percentage, investment income or loss, carrying amount of the investment at the end of the period, repatriations of investment income, and limit on the amount of investment in the Mainland China area.

Unit: Thousands of NTD

Name of investee in Mainland China	Main businesses	Paid-in capital	Investment method	Accumulated investment amount remitted from Taiwan at the beginning of the period	Amount of investment remitted or recovered during the period		Accumulated investment amount remitted from Taiwan at the end of the period	Net profit or loss of the Investee for the period	Shareholding percentage of direct or indirect investment by the Company	Investment income or loss recognized for the period	Carrying amount of investment at the end of the period	Investment income repatriated as of the end of the period
					Outward remittance	Repatriation

Accumulated investment amount remitted from Taiwan to Mainland China at the end of the period	Investment amount approved by Investment Commission, MOEA	Investment limitation for Mainland China regulated by the Investment Commission, MOEA
$411,392	$411,392	$1,866,298

Note 1: As of December 31, 2023, the Company invested USD 13,455 thousand in SINGATRON (B.V.I.), a holding company in a third region. . Through this holding company in a 3rd region, the Company invested in SINGATRON (HONG KONG) INTERNATIONAL HOLDING LIMITED and then indirectly invested in SINGATRON Electronics (China) Co., Ltd. and Singatron Electronic (Zhongshan) Co., Ltd. in Mainland China.

Note 2: Foreign currency amounts were translated into NTD based on the exchange rate at the balance sheet date.

Note 3: The investment income or loss recognized in the financial statements of the same period audited by CPAs.

Note 4: The difference between the accumulated investment amount remitted from Taiwan and the paid-in capital amount is mainly due to the 43,000 thousand A-shares issued by and capital increase from earnings of SINGATRON Electronics (China) Co., Ltd. and the capital increase by US$2,000 thousand in cash of SINGATRON (HONG KONG) INTERNATIONAL HOLDING LIMITED with its own funds.

Note 5: The difference between the accumulated investment amount remitted from Taiwan and the paid-in capital is mainly due to the fact that Singatron Electronic (Zhongshan) Co., Ltd. distributed its earnings to SINGATRON (B.V.I.) ENTERPRISE CO. (B.V.I.), LTD. and then SINGATRON (B.V.I.) ENTERPRISE CO., LTD. increased the capital of SINYIN ELECTRONICS (ZHONGSHAN) CO. . .

Note 6: SINGATRON Electronics (China) Co., Ltd. increased capital by RMB 19,000 thousand in cash with its own funds.

Note 7: Singatron Electronic (Zhongshan) Co., Ltd. increased capital by RMB 6,000 thousand in cash with its own funds.

Note 8: SINGATRON Electronics (China) Co., Ltd. increased capital by RMB 9,000 thousand in cash with its own funds.

Note 9: The Company’s second-tier subsidiary, SINGATRON (HONG KONG) INTERNATIONAL HOLDING LIMITED, sold 100% of its indirect investment in Chung Shan Lung Tais Hing Electroplating Co., Ltd. in November 2014.

Note 10: The Company’s second-tier subsidiary, SINGATRON (HONG KONG) INTERNATIONAL HOLDING LIMITED, adjusted its investment structure in September 2020 by transferring its indirect investment in 25% equity of Singatron Electronic (Zhongshan) Co., Ltd. in Mainland China to SINGATRON Electronics (China) Co., Ltd. so that SINGATRON Electronics (China) Co., Ltd. increased its shareholding in Singatron Electronic (Zhongshan) Co., Ltd. from the original 75% to 100%.

Note 11: SINGATRON Electronics (China) Co. Ltd., the sub-subsidiary of the Company, was officially listed on the Shenzhen Stock Exchange on July 17, 2023 with the issuance of 43,000 thousand common shares (A-shares) in RMB through cash capital increase. The Company's sub-subsidiary SINGATRON (HONG KONG) INTERNATIONAL HOLDING LIMITED is the controlling shareholder of SINGATRON Electronics (China) Co. Ltd. Pursuant to Article 26 of the "Regulations Governing the Issuance and Underwriting of Securities" of the China Securities Regulatory Commission: the controlling shareholder is not allowed to participate in the placement of securities by public companies, resulting in a decrease in the shareholding of SINGATRON Electronics (China) Co. Ltd. from 81.8868% to 61.1986%.

Note 12: Eliminated in the consolidated financial statements.

2. Significant transactions with investees in Mainland China:

(1) Amount and percentage of purchases and related payables at the end of the period: Please refer to Exhibit 8 for details.

(2) Amount and percentage of sales and related receivables at the end of the period: Please refer to Exhibit 8 for details.

(3) Amount of property transactions and the resulted gains or losses: None.

(4) Ending balance and purpose of endorsement and guarantee with notes: Please refer to Exhibit 1 for details.

(5) The maximum balance, ending balance, interest rate range and total current interest on financial accommodations: Please refer to Exhibit 8 for details.

(6) Other transactions that had a significant effect on the profit or loss for the period or financial position, such as the provision or receipt of services: Please refer to Exhibit 8 for details.

(7) The above transactions between the Company and its consolidated subsidiaries were eliminated upon preparation of the consolidated financial statements. See Exhibit 8.

(IV) Information on Major Shareholders:

Shares / Name of major shareholder	Total number of shares held (shares)	Shareholding percentage
SHENG CHUN INVESTMENT CO., LTD.	10,945,786	9.33%
KAN SHI INVESTMENT CO., LTD.	7,764,829	6.62%

XIV. Segment Information

For management purposes, the Group segregates operating units based on different products and services, with the following two reportable operating segments:

1. Connector Operating Segment: This segment is responsible for the production and manufacturing of connectors for sale to electronic product manufacturers.

2. Electronic Module Products Segment: This segment is responsible for the design and trading of electronic module products such as charging modules and sensing modules, which are sold to electronic product manufacturers or distributors.

Management individually monitors the operating results of their business units to make decisions on resource allocation and performance evaluation. Segment performance is evaluated on the basis of operating profit or loss before income tax and is measured in a manner consistent with operating profit or loss in the consolidated financial statements. However, income tax in the consolidated financial statements is managed on a group basis and is not allocated to the operating segments.
Inter-operating segment transfer pricing is based on arm's-length transactions with external third parties.

1. Information on profit or loss, assets and liabilities of reportable segments:

2023

	Connectors segment	Electronic module products segment	Subtotal by reportable segment	Other segments	Adjustments and eliminations	Group total
Revenue						
Revenue from external customers	$3,373,350	$78,380	$3,451,730	$-	$-	$3,451,730

Note1: The number column shall be filled in as follows:

(1) Fill in 0 for the issuer.

(2). Investees are numbered sequentially from Arabic numeral 1 by investee

Note 2: There are seven types of relationships between the endorser/guarantor and the endorsee/guarantee, and the types can be indicated as follows:

1. Entities with business dealings
2. Entities in which the Company directly or indirectly holds more than 50% of the voting shares.
3. Entities that directly or indirectly hold more than 50% of the voting shares of the Company.
4. Between the entities in which the Company directly or indirectly holds more than 90% of the voting shares.
5. Intra-industry or co-founded entities with mutual insurance in accordance with contractual provisions based on the need for contracted work.
6. Entities that are endorsed and guaranteed by all contributing shareholders in proportion to their shareholdings as a result of joint investment.
7. Intra-industry entities engaged in joint guarantees for the performance of the pre-sale house sales contract in accordance with the regulations of the Consumer Protection Act.

Note 3: In accordance with the Company's "Operating Procedures for Endorsement and Guarantee", the total amount of the Company's external endorsement and guarantee shall not exceed 100% of the current net worth.

The amount of endorsement and guarantee for a single enterprise shall not exceed 30% of the current net worth.

The amount of endorsement and guarantee for a single overseas affiliate shall not exceed 60% of the current net worth.

Note 4: The total amount of external endorsement and guarantee shall not exceed 60% of the latest audited net assets in accordance with the "External Guarantee Management System" of the sub-subsidiaries.

The amount of a single endorsement and guarantee shall not exceed 30% of the latest audited net assets.

The total amount of endorsement and guarantee between affiliates shall not exceed 60% of the latest audited net assets.

Note 5 : According to the "Operating Procedures for Endorsement and Guarantee" of subsidiaries, the total amount of external endorsements/guarantees shall not exceed 100% of the net value for the current period. The amount of endorsement and guarantee for a single enterprise shall not exceed 30% of the current net worth.

The amount of endorsement and guarantee for a single overseas affiliate shall not exceed 60% of the current net worth. The total amount of endorsements/guarantees by the Company and its subsidiaries shall not exceed 100% of the most recent net worth of the parent company.

Note 6: Foreign currency amounts were translated into NTD based on the exchange rate at the balance sheet date.
